

GREYHOUND DNA & MICROCHIPPING

Greyhound DNA

DNA fingerprinting of greyhounds is controlled by Greyhounds Australasia, who have set a national fee of \$118 for the DNA program.

YOU NEED TO TAKE THE FOLLOWING STEPS TO HAVE YOUR GREYHOUND DNA REGISTERED.

1. Contact Greyhounds Australasia to obtain an Application for DNA Fingerprinting of a Greyhound.
2. Upon receipt of the completed Application and \$118 fee, Greyhounds Australasia will forward to you a DNA kit and a Requisition for DNA Fingerprinting a Greyhound (FORM 2).
3. Take your greyhound to a veterinarian approved by RWVA along with the DNA kit, Requisition (FORM 2) and the greyhound's Registration Papers (See reverse for a list of RWVA approved veterinarians).
4. The veterinarian will collect the sample and verify the greyhound's identity, then forward the sample directly to Genetic Technologies for analysis.
5. Genetic Technologies analyse the DNA sample and confirms parentage.
6. Genetic Technologies forward the results of the analysis directly to Greyhounds Australasia who will then notify you of the result by mail. The "DNA Certificate" and a "DNA Certified" label will be included with the notification. You must affix "DNA Certified" label to the greyhound's Registration Papers.

It will take approximately 6-weeks from the time the sample is received by Genetic Technologies, for you to be notified of the result.

Note:

1. **You must take your greyhound's Registration Papers with you to the veterinarian.**
2. **You are responsible for any fees charged by the veterinarian in taking the sample and the cost of transporting the sample to Genetic Technologies.**
3. **It is a condition of Registration of any Litter that the Sire and Dam have been DNA fingerprinted and registered prior to the date of whelping.**

Micro chipping

All greyhounds whelped after 1 January 2011 must be micro-chipped by a RWVA Approved Veterinarian (see over for approved veterinarians) between the age of 6-12 weeks before ear branding by RWVA Stewards. Details and microchips will be provided direct to breeders upon lodgement of Notification of Service (Form D) or Notification of Whelp (Form E) at the relevant time. Queries regarding micro chipping can be directed to (08) 9445 5501.
