STEWARDS ADVICE:
Following the running of Race 1 a technical issue was identified with the lure system. On further inspection it was determined that the services of an expert in this area would be required to attend the race course. In conversation with the expert he confirmed that he would take approximately an hour to arrive on course and given the nature of the problem he could offer no guarantee that the issue would be resolved this evening. Stewards consulted with industry members and it was agreed not to proceed with the race meeting under the circumstances. Various public announcements were made. Subsequently the race meeting was abandoned. As a result this evenings weight records from Race 2 onwards were deleted.
