Prior to the running of Race 11, glass from a broken bottle was detected in the vicinity of the 647m boxes. Subsequent investigations indicated that the bottle may have been thrown from the public carpark by a departing patron and struck the outside rail causing it to break. This appeared to be a random incident that occurred when no greyhounds were on the track, rather than a deliberate act.

Stewards along with track staff inspected the track and in consultation with the on-track veterinarian and WAGBOTA representatives, determined in the best interests of welfare that the race meeting be abandoned, in order to undertake the required remedial works in daylight hours to ensure all fragments were removed.

In addition, public trials scheduled for Saturday morning were also cancelled to facilitate the required remedial works.
