EXECUTIVE SUMMARY

THE aim of this policy document is to provide industry participants with a guide as to the weight horses will receive by virtue of their performances as they move through the class system, or for that matter remain within the same grade. It is contended that Handicappers must attempt to provide consistent handicapping, and enable the connections of horses to have a greater understanding of the methods used.

Western Australia has adopted a mostly class based system. Ratings based races as well as special conditions races will continue to be programmed at certain venues.

It is important to note that the following template is to be used as a guide, as there are instances where the quality of the field can affect scales used in the handicapping of races. This especially applies in feature handicap races, where the Handicapper may have the scope to be flexible as a consequence of a very strong nomination and taking into consideration the objective of attempting to attract the best possible field.

Handicappers are bound by the requirements of AR. 103(1) which requires the Handicapper to issue a set of weights for all handicap races, other than group one races and races restricted to two-years-old horses only, with a minimum top weight of 59kg. In satisfying the requirements of this rule it may be necessary for the Handicapper to raise weights from that disclosed on the RBH template.

It is an objective of all Western Australian Handicappers to provide industry participants with a greater understanding of the procedures involved in the Handicapping of all races, both in the metropolitan and provincial/country areas of the state.

HANDICAPPING AREAS OF RESPONSIBILITY

OVERVIEW OF RATINGS BASED HANDICAPPING

THE Ratings Based Handicapping (RBH) system developed in Western Australia is a numeric based ratings system designed to provide greater transparency of the handicapping system to industry participants.

Under RBH, horses receive a numeric rating directly following each racecourse performance in Western Australia. Stakeholders may then apply the published rating to the RBH template to identify the weight the horse will receive in each race type, subject to any race scaling required to satisfy the minimum top weight requirement under the Australian Rules of Racing.

It is important to note that the RBH template is to be used as a guide, as there will be instances where the quality of the field will impact scales used in the handicapping of races. In Group, Listed and other feature races the Handicapper has the scope to be flexible in framing the weights, allowing for the consequence of a very strong nomination and taking into consideration the objective of attempting to attract the best possible field. However, published ratings can be used as a guide by stakeholders to actual weights.

Whilst RBH offers many advantages to stakeholders and other interested groups, it must be remembered that it will not always provide the same adjustments that are usually afforded by 'discretionary' handicapping. The user cannot expect that all horses having a "ratings" adjustment after any particular race will necessarily be in a manner that allows each horse to be meeting each other runner that finishes in front of him or her on better weight terms.

Horses that are better suited in staying events can not automatically expect a reduction in rating when contesting sprint events. Horses that have a history of performing well within the provincial and country areas and do not carry this level of competitiveness across when contesting metropolitan class events, should also not expect to necessarily have a rating reduction when returning to their normal place of competition. Horses racing materially 'out of the handicap' will also not be assessed for a reduction in rating.

Recognising the difference in quality of events between metropolitan/inner provincial venues and outer provincial/country venues, a separate metropolitan (m) and country (c) rating may be held for the same horse. This allows the Handicapper to address the situation where a horse accumulates a high rating by winning only against the same isolated pool of horses.

RATINGS BASED HANDICAPPING METHODOLOGY

- The ratings for Western Australian horses will be available on the RWWA website within two working days of the last start. Horses racing outside WA will have a rating assigned upon request to the Handicapping panel or when re-nominating within this state. All published ratings are subject to review by the Handicapper when the horse is next nominated for a race.
- Other interstate horses will be allocated a rating when first nominated in WA.
- RBH has been designed to allow stakeholders to obtain the published rating from interstate and loosely apply it to the Western Australian RBH template to obtain a guide on the weight the horse may expect in each class of race in WA. It is important to remember that, when assessing a rating for a horse that last raced interstate, the rating remains subject to review by the RWWA handicapping panel. This is further significant for fillies and mares who will have the 2kg sex allowance incorporated within their rating in Western Australia.
- In handicap events, with the exception of Group, Listed or other feature races, horses will be balloted in order of published ratings, lowest first. Horses with the same rating will be separated at the Handicapper's discretion. The Handicapper maintains the ability to elevate any horse in the ballot, irrespective of that horse's rating, to correct an obvious anomaly in the ballot. Fillies and mares have 4 points (equivalent to 2kg) added to their published rating for ballot purposes.
- Ratings are not to be used as a guide for balloting in maiden races as different balloting conditions apply, as detailed later in this document.
- From time to time, horses may be allocated more weight in a particular race than the template dictates. In these instances the race will have been 'scaled' by the Handicapper to satisfy the minimum top-weight rule, so as to ensure maximum competitiveness throughout the nominations and to attain a minimum 4kg spread of weights.
- The allowance for fillies and mares is included within each horse's published rating, ie the rating published can be directly applied to the template.
- Handicappers do not factor in apprentice claims, such weight allowances are given to equate the relative inexperience of the junior rider to his more senior counterpart. However, all overweight carried may be accounted for in the reassessment of ratings.
- Horses will not be allocated a rating until after their third race start unless placed at their first or second race start.
- Due to the unraced rating varying between areas, any rating issued to a maiden horse is to be considered interim, and subject to change if moving to another area to race, eg. Provincial A to Provincial B.

Two-Years-Old only races	58kg

Where it is necessary to raise the weight of all runners to achieve the minimum top-weight, the Handicapper will attempt to maintain a minimum spread of weights of 4kg in the metropolitan & provincial areas and 3kg at country venues.

MINIMUM TOP-WEIGHT AT ACCEPTANCES (AR103 & LR103)

A minimum top weight at acceptances of 58kg is applicable to all handicap races. Where a horse is weighted on the declared minimum weight but would otherwise be allotted a lesser weight in the absence of a required minimum weight, the increase in weight shall be applied to the lesser weight.

PENALTIES FOR WINS & PLACES

METROPOLITAN PRIME MEETINGS

The average penalty for Saturday metropolitan races is 2kg to 2.5kg when going into a similar standard of race at their next race.

Horses placed second and third in metropolitan races are also eligible to be re-handicapped. On most occasions the second place getter will be afforded a 0.5kg to 1kg penalty. Horses placed third may receive a 0.5kg penalty or remain neutral.

On occasions the Handicapper may allocate a higher or lower penalty dependant on the merit of the performance and the horses overall career performances. Horses racing out of the handicap are also likely to receive a greater penalty.

METROPOLITAN MIDWEEK & PROVINCIAL MEETINGS

The average penalty for wins in midweek metropolitan races is 1.5kg - 2kg when going into a similar standard of race at their next race. On most occasions the second place getter will be afforded a 0.5kg to 1kg penalty while the third placed horse may receive a 0.5kg penalty or remain neutral.

COUNTRY MEETINGS

The average penalty for a win at provincial and country races is 1kg to 2kg. On most occasions the second place getter will be afforded a 0.5kg penalty while the third placed horse will, in most circumstances, remain neutral.

UNPLACED RUNS

Horses running unplaced are eligible for weight relief. In many instances horses finishing fourth and fifth will remain neutral, depending on the margin from the winner. Horses placed fifth to last may lose between 0.5kg to 2kg in the same grade of race.

In the following circumstances horses may not receive weight relief:

- If the horse is racing out of the handicap; i.e. the horse's rating is materially below the minimum rating for the race;
- If the horse is racing at an unsuitable distance, such as staying performers contesting sprint events;
- If the horse is the recipient of interference in running;
- If the horse had noticeably missed the start;
- If the horse raced wide throughout;
- If the horse is racing at their first or second start back from a spell.

It is the aim of the Handicapper to review the rating of an unplaced horse to a level he feels will allow that horse to become competitive while being conscious that there are many external factors to the weight carried that may impact a horse's performance.

- Horses which have won a race of the advertised value to the winner of \$18,000 or over but less than \$45,000 to carry 2.0kg extra; of two such races 3.5kg extra; of three or more such races 4.5kg extra.

BUSINESS RULES

- Weight penalties or changes in ballot order may be issued subsequent to any wins after nomination.
- Only ratings issued by the RWWA Thoroughbred Handicapping Panel will be recognized. The rating of any horses having last started interstate or overseas will have their rating reviewed by the RWWA Thoroughbred Handicapping Panel on its first nomination in Western Australia.
- In accordance with AR103(1) the top weight at declaration of weights shall not be less than 59kg, with the exception of group one races and two-years-old only races where a minimum top-weight of 58kg is applicable.

BALLOTING CONDITIONS

Where the number of horses in any race exceeds the number set down by the Stewards or Committee of the Club RWWA may, except where special balloting conditions apply, implement any or all of the following conditions to eliminate horses to meet the limits.

- (a) Subject to the provisions of LR51A (1) any horse considered a final acceptor for more than one race at the same meeting shall be withdrawn from the race with the higher number of acceptors. Provided that horses will always be withdrawn from a non-feature race and not be withdrawn from a Group, Listed or other race advertised as Discretionary Balloting. A horse declared an emergency runner in any race may be engaged as an acceptor for another race at the same meeting.
- (b) Any horse engaged to run at a meeting that has already accepted will be relegated to the lowest emergency position in any subsequent race that horse is entered for. Provided that horses will be exempt from this clause if the subsequent race is a Group, Listed or other race advertised as Discretionary Balloting.
- (c) In the event of the time for nominations being extended because of insufficient entries (or some other reason), any horse which had been nominated by the inaugural nomination time shall be given preference for a start over any horse which was nominated after the time for extending entries was announced, except when the horse is engaged to run at a meeting that has already accepted.
- (d) Any horse classified by the Handicapper below the declared minimum weight shall be eliminated in order of the Handicappers rating. Horses with the same rating will be separated at the Handicapper's discretion. The Handicapper may, at his discretion, elevate any horse in the ballot, irrespective of that horse's rating, to correct an obvious anomaly in the ballot. For ballot purposes, the rating of all fillies and mares is increased by 4 points to recognise the 2kg sex allowance
- (e) Any maiden horse nominated to run in a handicap race will be relegated in the ballot below horses that have already won a race, unless the maiden horse was placed second or third within its last three starts where it will be balloted by the Handicappers rating. Maiden horses relegated under this clause will be balloted in accordance with the standard maiden balloting conditions listed below under section (l).
- (f) Notwithstanding the foregoing conditions RWWA and the Committee of the Club may, in its absolute discretion, eliminate any horse or horses from a race, and/or exclude any horse or horses from the operation of any or all of the preceding elimination conditions, irrespective of the age, allotted weight or Handicappers rating of the horse concerned.
- (g) RWWA reserves the power to make provision for the naming of horses as Emergency Runners subsequent to any ballot; provided that when it is determined that a race shall be run in two or more divisions at close of nominations, the Emergency Runners named in any division may be placed in any other division to take the place of horses withdrawn at time of final acceptances.
- (h) RWWA and the Committee of the Club reserves to itself the power to transfer the nomination of any horse balloted or withdrawn from the race in which it was entered to a suitable race on the same day, or another meeting where entries close on the same day. Provided that where a horse has not been withdrawn from the race prior to the time appointed for final acceptances the acceptance of the horse so transferred shall be taken as the nominator's approval of such transfer and for the purpose of eligibility, qualification or race conditions shall be deemed to have been nominated in the race to which it was transferred. Further provided that where the other horses in such race have not been withdrawn prior to the time appointed for final acceptances, the acceptance of such horses shall be taken as confirmation of the nominator's approval of the transfer of the horses concerned.
- (i) RWWA reserves to itself the power to re-open nominations for any race at a meeting to allow horses accepted for a race deleted at acceptance time or abandoned after acceptance time to nominate. Provided that any horse which had been nominated by the inaugural nomination time shall be given preference for a start over any horse which was nominated after the time nominations were re-opened.
- (j) No liability shall be incurred to the nominator of any horse or to any other person in consequence of or by reason of any departure whether intentional or otherwise from these conditions.
- (k) In any case not provided for under the Rules, the decision of RWWA shall be final.
