# RED CAN MAN

## OWNERS GOING FOR A RIDE MONEY CAN'T BUY

By Michael Heaton

**Multiple stake-winning gelding Red Can Man is one of WA's most exciting gallopers and is set to be a key player at the upcoming Ascot spring carnival.**

Trained by Steve Wolfe, the Gingerbread Man four-year-old has won seven of his 12 race starts to date and has missed a place just once, accumulating almost \$650,000 in stake-earnings and bonuses in the process.

The talented chestnut has also attracted a popular following due to his incredibly-Aussie race name that makes reference to the renowned Emu Export beer can and, after being the subject of lucrative overseas and interstate offers which were eventually turned down, the sprinter-miler's large ownership group are enjoying the thrill of a lifetime.

One of the fortunate owners is former Richmond and South Fremantle footballer Noel Carter, now the owner of Commercial Bloodstock Services and a partner in PSC Bloodstock Services, whose association with Wolfe began three decades ago.

"I first met Steve at the round in Kalgoorlie and I think it was one of those events where you have 100 or 200 people on a bus out in the bush somewhere," Carter said.

"It might've been at Ora Banda or somewhere like that.

"He was a South's supporter and he struck up a bit of a conversation and it all started from there.

"It was that long ago that I've forgotten exactly when, but it was probably celebrated over a red can as well, I'd say, so it's turned a whole circle after 30-odd years!"

Carter and Wolfe have worked in tandem whilst inspecting stock at yearling sales for many years now and have enjoyed great success with modest purchases, selecting horses such as Lordhelpmerun (\$610,360-earner to date) for \$25,000, Wolfe Dreams (\$512,810) for \$22,000, Our Ol' Fella (\$480,210) for \$28,000, My Greek Boy (\$453,810) for \$25,000 and — more recently — Red Can Man (\$645,590) and Watch Me Dance (\$367,400) for \$50,000 and \$34,000 respectively.

Asked how the pair narrow down their yearling criteria, Carter says they simply try to remove as many elements of risk as possible.

"We'd work through at least a third of the draft, so there'd be about 120 yearlings on our list that we look at," he said.

"There's no science to it, but you just try to eliminate as much as you can.

"Steve and I like the sires, then we go through the family and we tend to stick to things that work for us, rather than try to reinvent the wheel.

"We put out heads together and buy them, then we put together a few owners and away we go."

Whilst Carter regretfully didn't retain ownership in Lordhelpmerun or Wolfe Dreams, he's counting his lucky stars that he stayed in Red Can Man after he was knocked down to his Commercial Bloodstock operation at the 2018 Perth Magic Millions sale.

He says he liked the look of the then-yearling colt from the outset.

"We scouted around at the yearling sales and we bought half a dozen that year," Carter said.

"We filtered through them all and he was a nice horse that we settled on.

"I can't buy into all of them, but I did in this one.

"It depends a bit on how much I'm loaded up because if I take 10 per cent of everything then it's too much but, if I take 10 per cent here and there, it seems to work in my favour.

"Watch Me Dance has come along since then, too, which is good.

"My wife is in that one and she was one that we picked out, as well."

With 13 men listed in the ownership, some of whom hail from the Albany locale that is also home to Wolfe's main training base, it's easy to imagine Red Can Man's post-win celebrations.

The group usually aren't difficult to identify on race day, either, with their custom-made Red Can Man red caps sported proudly around the course.

"I never actually got one of those hats," Carter laughed.

"A couple of Albany boys are in him and Steve's brother has got two or three young fella's down in Albany that get involved and they get pretty excited.

"I put young Keithy Watson Jnr in there, but Steve put the rest in.

"There's a couple of Steve's long-time clients in there, too, so it's a good result for good people all-round."

Asked where the star gelding's easily-recognisable race name originates from and who can take the praise for it, Carter confirms the expected answer.

"The name came from the boys down south," he said.

"I think the Gingerbread Man part might've got a good going over while having a few red cans.

"I'm pretty sure how that's how it came along."

After taking out the \$100,000 Listed Fairetha Stakes and finishing a narrow third in the \$500,000 Group 2 WA Guineas at Ascot last November, Red Can Man has attracted a series of considerable offers for the ownership group to consider.

The peak of the bids came after the gelding went undefeated from three starts at his next preparation at Ascot in March and April, with the proposal including a 50 per cent purchase that would see him race in Victoria and provide additional bonuses for wins.

Carter says that deal was almost past the post, however, their decision to knock it back has already been partly

justified after Red Can Man took out the \$100,000 Listed Bolton Sprint at Belmont on July 25 to extend his winning streak to four.

"We came close to selling him the most recent time because the offer was pretty good, but it just didn't get over the line," Carter said.

"I think Steve thinks this one is a chance of making it to the big time.

"When you've been a trainer all that time, giving up an opportunity to get to Group 1 status is a bit hard and I understand all of that.

"We'll see what happens in the next few weeks now.

"Steve's really happy with now he's coming along and he definitely doesn't have any problems getting out of bed to look after him."

Having been involved in racehorse ownership for decades, Carter has experienced the highs on the lows of the caper.

Asked what he loves the most about the racing industry, he says the elation of winning and sharing the moment with people from all walks of life is hard to beat.

"To see the thrill on everyone's face when they win," he said.

"Obviously you don't see it all the time, but you've got to lose races, I think, to really enjoy the winning.

"I think that's what separates the really true owners from the people who get into a share in a horse, win first-up and then their expectations are high all of the time.

"Whereas, if you've been in a few and have run a few lasts and had some disappointments, when the wins start coming I think it's far more appreciated and enjoyed.

"Some of Red Can Man's last few wins were during Covid so no one has been able to get together at all but, in my case, I still went and got a slab of 30 and enjoyed it.

"The horse is doing a good job and, whilst significant money was knocked back, we're going to have some fun."

Regal Power and its connections took out several honours at the WA Thoroughbred Awards held on Saturday 19 September – including the prestigious 2020 WA Racehorse of the Year – following an impressive season by the 5YO gelding.

Its owners, Bob and Sandra Peters, took out the Leading Breeder awards, whilst successful training duo Grant and Alana Williams won the Leading Metropolitan Trainer award. The pair, responsible for 104 winners and over \$4.8 million in prizemoney, had an impressive strike rate of 31% in the past season.

Champion rider William Pike celebrated another outstanding term by taking home the award for 2020 Leading Metropolitan Jockey. Pike, who broke his own Australian record for number of wins in a season, posted 239 victories in the 2019/20 racing season.

With 124 wins, 103 of which were at provincial race meetings, Kyra Yuill was awarded Leading Provincial Jockey.

Jade McNaught won the Leading Apprentice Jockey award, whilst Chloe Azzopardi was recognised as the Best All Round Apprentice.

The Leading Provincial Trainer award was presented to Peter Fernie, after he produced 78 winners for \$1.6 million in prizemoney last season, 66 wins of which were at provincial race meetings.

The award for 2YO Racehorse of the Year went to the Steve Wolfe-trained filly Watch me Dance, who claimed the Group 3 Amelia Park WA Sires' Produce Stakes (1400m), and ran second in the in the Gimcrack Stakes (1100m) and Karrakatta Plate (1200m).

Kingston Town and Burgess Queen winner Kay Cee, trained by Neville Parnham, won the category 3YO Racehorse of the Year. The daughter of Playing God also enjoyed a golden winter campaign by taking out a feature race double by taking out the Listed Raconteur Stakes (1400m) and the Listed WAROA-Belmont Guineas (1600m).

Champion WA stallion Blackfriars was awarded Leading Sire, with Broadway Belle and Star Encounter recognised as Leading Broodmares.

RWWA Chairman Jeff Ovens said RWWA was honoured to recognise and applaud the award winners and their commitment to the Western Australian racing industry.

"It is important to have awards that actively acknowledge the successes of our industry, and to reflect on the outstanding achievements that were made in the previous season," Mr Ovens said.

"All of the award winners should be very proud of their contributions, and have deservedly been celebrated this evening for the vital role they play for racing in WA."

# OFF THE TRACK WA ESTATE UNVEILED

Racing and Wagering Western Australia (RWWA) has unveiled its new multi-purpose racehorse welfare facility, the Off the Track WA (OTTWA) Estate, with the first horses transitioning through the program being donated to HorsePower Australia (formerly known as Riding for the Disabled).

At an event held on 25 September 2020, RWWA announced the official opening of its new Estate, which forms part of a series of commitments outlined in its WA Racehorse Welfare Plan.

The Estate will facilitate the retraining and rehoming of retired racehorses through RWWA's OTTWA Retraining Program, as well as host clinics and events to further support owners transitioning their retired racehorses to equestrian and pleasure pursuits.

Located in North Dandalup, the Estate can accommodate up to 40 horses, which will include horses that are at the Estate for pre-assessment prior to being allocated to an OTTWA Official Retrainer, as well as horses who may return to the facility following their retraining process to be sold from the property.

The Estate will also ensure sufficient space is available at all times for any emergency welfare cases, should they arise. Further to this, a network of off-site Official Retrainers will accommodate an additional eight horses, with the retrainers' capacity expected to increase over the next six to 12 months.

Once a horse has been accepted into the Program, they will undergo an initial evaluation at the Estate, from which they will be allocated to one of the Official Retrainers in the program. The horse will then move to its retrainer's property, where it will commence a tailored education and

training program based on its needs and requirements. Once the retrainer is satisfied with the level of education, the horse will be made available for sale through the OTTWA website.

RWWA Chair Jeff Ovens said that the launch of the Estate and the OTTWA Retraining Program was an important step in improving welfare standards for racehorses in WA and was pleased that the facility would provide an opportunity to further assist HorsePower Australia.

"We have selected two standardbreds that meet the initial criteria for HorsePower Australia, and if they meet the standards required to be a therapy horse following the re-training process, they will be donated to HorsePower's Peel centre," Mr Ovens said.

"The launch of the Estate and the OTTWA Retraining Program is an important step in ensuring the best levels of care are provided to our racehorses during all stages of their life."

The OTTWA Retraining Program accepts both thoroughbreds and standardbreds who have been bred for the purpose of racing. Acceptance of horses will be based on a range of criteria such as spelling period, location, soundness and condition.

The full criteria is available on the OTTWA website.

# WA RACEHORSE WELFARE PLAN

In November 2019, Racing and Wagering Western Australia (RWWA) developed a welfare plan that incorporates all stages of a racehorse's life through a program of investment, education, monitoring and regulation. Since then, the following progress has been made in relation to each area identified as requiring immediate focus to safeguard the welfare of our horses.

FOCUS AREAS	ACTION	OUTCOME
<b>Traceability</b> Create broader and more comprehensive traceability of racehorses during all stages of their lives.	<div>  <b>WA Racehorse Passport:</b>            RWWA's Off the Track WA Passport was launched in August 2020. The initiative is designed to ascertain details of the location and life of horses once they leave the care of the racing industry.         </div> <div>  <b>Compliance and enforcement:</b>            Considerable progress has been made in this area, with a comprehensive WA racehorse census being undertaken of horses currently registered for racing. Completion is expected by the end of 2020.         </div> <div>  <b>Industry education:</b>            Industry briefing sessions have been scheduled across the State to further educate industry participants on expected welfare standards and the WA Racehorse Welfare Plan.         </div> <div>  <b>National Horse Traceability Register:</b>            RWWA is continuing to work with Racing Australia and Harness Racing Australia to push for the Federal Government to introduce a National Horse Traceability Register.         </div> <div>  <b>Licensing of WA breeders:</b>            Consultation has commenced with WA breeders regarding the development of a licensing framework, with further consultation underway.         </div>	<ul style="list-style-type: none"> <li>✓ Initiatives have been implemented to gather further data and information about retired racehorses.</li> <li>✓ Significant progress has been made in establishing frameworks supporting increased compliance, accountability and transparency within the industry.</li> </ul>
<b>Rehoming</b> Assist in the transition of retired racehorses to equestrian and pleasure pursuits, and provide support for their ongoing wellbeing.	<div>  <b>Retirement rule:</b>            A framework is being developed to implement a new WA rule of racing, whereby industry participants must aim to rehome all healthy and behaviourally sound thoroughbred and standardbred racehorses.         </div> <div>  <b>Racehorse welfare facility:</b>            RWWA purchased its multi-purpose racehorse welfare facility, the Off the Track WA Estate, in December 2019. The Estate cares for any emergency welfare cases that emerge through RWWA's Integrity Department. The Estate also forms an important part of the Off the Track WA Retraining Program, in addition to accommodating clinics and events for owners of off the track horses.         </div> <div>  <b>Off the Track WA Retraining Program:</b>            The Off the Track WA Retraining Program launched in September 2020. To assist in the implementation of such initiatives, additional personnel to the Off the Track WA team have been recruited.         </div>	<ul style="list-style-type: none"> <li>✓ Dedicated platform to promote retired racehorses as pleasure or performance horses established.</li> <li>✓ Increased investment towards encouraging ownership and supporting current owners of retired racehorses.</li> <li>✓ Official Retrainers to assist retired racehorses in the transition from racing to pleasure or performance pursuits have been sourced.</li> </ul>
<b>Abattoirs and knackeries</b> Seek a sustainable reporting process for WA-registered abattoirs and knackeries, supporting the Department of Primary Industries and Regional Development's current regulation.	<div>  <b>Memorandum of Understanding (MoU):</b>            An MoU has been agreed and established between RWWA and WA's recognised knackery and abattoir to ensure welfare standards are upheld, as well as introducing a mandatory reporting process to assist with traceability and transparency. RWWA is also in the final stages of introducing a local rule of racing, whereby participants must only use a facility that holds an MoU with RWWA.         </div>	<ul style="list-style-type: none"> <li>✓ Increased transparency of reporting achieved.</li> <li>✓ A method to ensure welfare standards are upheld at such facilities in WA has been established.</li> <li>✓ A local rule to ensure use of mandated facilities will be in effect from 1 November 2020.</li> </ul>

# STOLEN THUNDER: LEGENDARY RACEHORSE AND WORLD CLASS SHOW JUMPER

By Mara Coombes

The incomparable Stolen Thunder performed well in whatever was asked of him, both on a racetrack and the very best of international show jump arenas.

Foaled in 1979, the 'I'm Scarlet' gelding won an impressive \$169,000 in prizemoney over 80 starts, with 13 wins, 10 seconds and four thirds under legendary trainer the late Barry Curtis between December 1981 and December 1987 before retiring. Stolen Thunder had a number of impressive wins to his name including twice winning the Hannans Handicap, Kalgoorlie's feature sprint race in 1984 and 1986, both with Jockey Laurie Millington aboard.

Stolen Thunders' Hannans Handicap win in 1984, at a time of 1:22.2, set a record which was equalled by Solid Bond in 1988 and Savile Row in 1989 but not broken until 10 years later by Defensive Play who clocked in at 1:22.17.

After their win in 1984, Laurie took a nasty fall during the Kalgoorlie Cup, resulting in multiple injuries, including a broken pelvis. The incident nearly ended Laurie's riding career. Against all odds he returned to the racetrack to win a follow up Hannans Handicap in 1986 on Stolen Thunder. This race, he says, is his most memorable.

---

***"He always did  
his best when fit  
and ready to go...  
He'd prance off  
the track in the  
morning."***

---

"In a race at Belmont Park Racecourse in 1986, I had allowed Mint Julep to take the lead and he beat me. I didn't let him do it again in the 1986 Hannans and that is now history; how we (Stolen Thunder and Laurie) lead and won." Laurie said.

"Not only did he win for myself and the trainer, Barry Curtis, the owners believed he was a good thing that day."

Laurie remembers Stolen Thunder as a professional, strong and easy to handle individual.

"He always did his best when fit a ready to go... He'd prance off the track in the morning."

Retiring as a successful racehorse, Stolen Thunder joined the stables of Peter and Noelene Cooke to begin his next chapter

as a show jumper. This is where the legendary show jump rider Alison "Doog" Rowland began riding the seven-year-old gelding. Growing up in Northampton, a small town 500kms north-east of Perth, Western Australian, rider Doog rode the gelding for the Cookes, until they sold him to Peta Charlebois. Doog continued the ride on him and eventually bought a share.

From there the pair went from strength to strength, made easy by his beautiful, although eccentric, nature.

"Thunder was a quirky horse and we had to pander to his needs at times," Doog recalls.

Doog travelled with Stolen Thunder to the eastern states where they placed second in the Australian Show Jump Championships at the Sydney Royal Show in 1992. They won four World Cup qualifiers and came second four to five times over courses between 150 and 160cms.

"I was very fortunate to ride such a talented horse. He taught me so much," Says Doog.

Olympic and World Cup Show Jumper, Vicki Roycroft competed alongside Alison and Thunder and recalls admiring the gelding.

"He was all you could want in a Thoroughbred; light on his feet and an extraordinary athlete," Vicki said.

Alison and Thunder qualified for the 1994 World Cup Final in S'Hertogenbosh, Holland. Making the journey to Europe, they placed an impressive seventh in the second leg.

Vicki travelled to Holland without a mount for the 1994 World Cup and remembers the off the track gelding from Australia not being out of place amongst the world's best show jumpers.

It was during this campaign that Stolen Thunder's talents were noticed by the European Show Jumping circuit and he was purchased by Rob Ehrens. Rob, now Dutch Chef D'Quippe, extensively competed across Europe with Stolen Thunder between 1994 and 1997. During this time they placed third at the 1995 Nations Cup in Aachen, and fourth in the World Cup in the same year. Rob and Stolen Thunder were nominated for the Olympics but sadly the gelding was found to be lame shortly before the start of competition and they were forced to withdraw.

Rob remembers the gelding fondly.

"He was a special horse, very sensitive. His canter was very good and he was careful." He says.

In 1997 Stolen Thunder was sold to fellow Dutch showjumper, Eric van der Vleuten. At this time Stolen Thunder was 18 years old. He continued competing with Eric in speed classes, which Eric says were his strength. These classes were part of a competition over a whole season, which he won in 1998. After one year of competing and winning Eric retired the Stole Thunder due to health concerns in 1998, 17 years after his first race start.

"He was a super nice horse with a fantastic mentality and I'm happy that we had him." Says Eric.

Stolen Thunder achieved notable success in two careers, with the very best jockeys along for the ride. He will not easily be forgotten by both those who rode him and those who watched the gelding make history, he was the epitome of an equine athlete on and off the track

# OWNER INSIGHT SERIES

The Owner Insight Series is a new initiative of Owners Only for the 2020/21 racing season which is aimed at connecting owners to the WA racing industry with a range of free behind-the-scenes events. The first event for the season took place on Sunday 20 September where owners gained exclusive access to the properties of Combined Farrier Supplies, Sharon Miller, Jade Tangaroa and Hayden Ballantyne. The next Owner Insight Series event is scheduled for Sunday 18 October.

# WORLD'S FIRST HORSE RACING LEAGUE: NOT FANTASY—IT'S REAL

The world's first horse racing league was today officially launched around Australia, signalling a bold new era for an industry historically known as "Sport of Kings".

The Racing League is positioned to revolutionise the industry, smashing down the barriers to racehorse ownership and allowing all Australians the opportunity to own, not one but six premium level thoroughbreds for only \$200.

Sporting legends will head-up the unique teams based league, with State pride and rivalry unleashing the powers of tribalism between opposing teams.

The Racing League's inaugural season will see the Queensland Rogues taking on the New South Wales Tycoons, the Vic Husslers and the Black Hearts from Western Australia.

The names are all designed around famous horses to create a bit of fun, rivalry and banter among the competing state domiciled teams and their owners, who'll all be engaged not only through the passion for their horses but now also uniquely through their team.

"It's the new game in town, it's not fantasy, it's real and the only sport where you can own the participants," said The Racing League, CEO Steve Brown.

"Industry leaders are on record as saying micro-ownership is the future of the sport and they are right"

"There's something quintessentially Australian about the racing industry and it should be available to everyone, and now it is through The Racing League." Brown said.

State of Origin legends Laurie Daley (NSW Tycoons) and Billy Slater (Qld Rogues) can't wait to once again battle for State superiority.

"There's nothing better than beating Queensland, I can't wait for the Tycoons to take to the track." Daley said.

While Slater is more than up for the challenge.

"I think Laurie forgot Queensland won 9 Origin series in a row and as a team of 1000's of Queenslanders in combination...the Rogues won't be beaten in TRL." Slater said.

Hawthorn premiership legend and Brownlow medallist Shane Crawford is a proud Victorian who had no doubt the Vic Husslers are the team to beat.

"Victoria is the capital of racing in this country and the Vic Husslers will only prove that again." Crawford said.

While in the West, Brittany Taylor was born into racing and inbetween riding trackwork for her dad Jim every morning and fronting Sky Racing's coverage is determined to cause an upset in The Racing League's inaugural season

"I think that the east coast will quickly find out that in terms of parochialism for their state, no one will come close to the West Australian." Taylor said.

The Racing League is the new game in town, it's bold, it's brash and it's disruptive and now everyone can afford to be a player on one of Australian sports biggest stages.

# 2020/2021 INDUSTRY DISTRIBUTION

Dear thoroughbred racing community,

On behalf of Racing and Wagering Western Australia (RWWA), I am pleased to announce we will be providing \$180 million in distribution, grants and subsidies to the State's racing industry for the 2020/21 season, representing an increase of \$16 million.

The sustainability and relevance of the industry is a key strategic focus for RWWA, and has been identified as vital for the betterment of the code in WA.

In alignment with these objectives, RWWA has committed a \$7.17 million increase in distribution for the thoroughbred code within the 2020/21 season, with key initiatives including:

- \$1.22 million increase in prizemoney for Outer Provincial A race meetings, as part of the second phase of RWWA's thoroughbred stakes strategy to generate more sustainable returns for trainers and owners specific to the Albany, Geraldton, Kalgoorlie and Mt Barker regions. The third stage of stakes increases to Outer Provincial B (Broome & Esperance), Provincial C (Narrogin & York) and Country race clubs will be considered as part of the 2021/22 budget.
- \$5.55 million towards key infrastructure projects, identified as being critical to the continuation of thoroughbred racing.
- \$320,000 in funding to allow for an increase in jockey race ride and trial fees as part of the second year of a three-year agreement, as well to account for the increase in workers compensation premiums.
- \$110,000 towards contracted Consumer Price Index (CPI) increases for MediaTec vision services.

In an effort to grow interest and revenue streams for the WA racing industry, \$1 million in funding will also go towards the development of a digital platform to promote

the State's racing product. The platform will provide customers with easy access to all relevant information about WA racing.

To ensure the best levels of care are provided to racehorses during all stages of their lives, RWWA will also provide \$1.29 million towards the rollout of RWWA's WA Racehorse Welfare Plan.

In August 2019, RWWA also announced that it would invest an additional \$6.8 million in funding through its Westspeed and EPONA initiatives, to enhance the local thoroughbred breeding industry from 2020/21 to 2022/23. The first of the horses to benefit from these changes will start their racing career next month.

RWWA remains committed to implementing strategic funding initiatives, with a strong emphasis on ownership and participation, commercial competitiveness and animal welfare.

With the impact of COVID-19 during the last season, it is important that we provide you, as a valued participant, with the confidence to continue to invest in the WA racing industry.

I would once again like to take this opportunity to thank you for your ongoing support and understanding through what has been a challenging and uncertain period, as we progressively get back to enjoying racing as we know it in WA.

We are looking forward to delivering on these important initiatives for the thoroughbred code as we enter into a new season, and I hope to see you very soon trackside.

Charlotte Mills

## HORSEPOWER DENMARK PARTICIPANT RECEIVES COMMUNITY TAB SCHOLARSHIP

Katrina Anderson from HorsePower Denmark has received one of Community TABs Hearts and Horses Scholarships.

The scholarship supports participants to access the vital therapy HorsePower Australia provides. For Katrina, it means being able to continue to attend her fortnightly riding sessions at the Denmark centre.

Katrina has a mild intellectual disability and the programs run by HorsePower Australia offer her the opportunity to participate in activities in her local community that assist her in developing new skills and abilities.

Katrina has a very special bond with horses and spending time with them soothes and provides her with a sense of calmness.

"Going horse-riding is one of my favourite activities to do. I love all the horses and being out in the fresh air and riding," Katrina said.

HorsePower Denmark added their thanks to Community TAB and their support of the HorsePower Australia Hearts and Horses Scholarship program, as well as thanks to all those who support Katrina to attend her sessions including Kirsty her support worker who drives the 100km round trip each fortnight ensuring she gets to spend time in the saddle.

## Westspeed Platinum winner by *Galah*

Galah continued his winning run last month when first-starter Mystic Love won the TABtouch Westspeed Platinum Maiden (1000m) at Belmont.

The Rangeview Park sire was coming off a running double with Miss Marietta and Pink 'N' Gray at Northam and his very promising 3yo filly Just Handy is getting ready for a summer campaign after winning a Lark Hill trial.

Mystic Love (4m Galah – Stitching by Scenic) was making a belated debut for Bellbridge Park's Mick and Siobhan Campbell at Belmont. "I've been training that family for 30 years and they always take time," Mick said.

"Her work had been pretty good and I was expecting a forward showing today.

"She's getting over a mouth abscess and was a bit erratic so it was a good effort. We also fitted ear-muffs pre-race. Lucy (Warwick) recommended them after trialling and I took her advice because she's a good little horsewoman."

Mystic Love is the fourth winner and final foal from Stitching. She won a Kyneton maiden when Campbell was based in Victoria and the family goes back to stakes winners like Craft Memory (LR Bunbury Stakes) and Mr. Callahan (LR Cyril Flower Quality).

Winning jockey Kyra Yuill took over the reins after Warwick was booked by her father Justin for Bosnipp in the same race. "I worked her a couple of times as a younger horse and she's certainly woken up since then," Yuill said.

"We got some cover but she's still very green and has lots to learn."

Galah represents the Danehill sireline through the breed-shaper's prepotent son Redoute's Choice. His dam Rinky Dink (Distorted Humor) was a Group 1 winner of the 2004 Australasian Oaks in Adelaide.

A Darley homebred, he was a brilliant 2yo winner at Rosehill and returned as a 3yo for black-type victories in the LR Australia Stakes (1400m) at Caulfield and G3 VRC Carbine Club Stakes (1600m) at Flemington.

He trained on as a 4yo to claim the G2 QTC Cup (1300m) at Eagle Farm before retiring to WA.

Galah stands for a \$4,400 service fee at Rangeview Stud alongside So Secret (Danetime) at \$2,750. They have been joined at the Burekup-based farm this season by LR Blue Diamond Preview winner Long Leaf (Fastnet Rock) who is priced at \$5,500. All fees (inc GST).

# Fituese raises bar for *The Everest*

Randwick trainer John Thompson has raised the bar again with Lynward Park-bred mare Fituese following her astonishing victory in the Vale Rick Worthington Hcp (1100m).

Fituese (Deep Field) was all set to head west for the G1 Winterbottom Stakes (1200m) in November on the back of her LR Denise's Joy Stakes success in May. But her first-up win at Rosehill last month has Thompson reassessing her current campaign to include a shot at the \$15 million TAB Everest at Randwick on October 17.

"Why not?" Thompson said in answer to queries about her chances in The Everest.

"She's just a winner and she's going places," Thompson said.

"It means a lot to win a race in honour of Rick Worthington. He was a great friend to everyone in racing."

Lumping equal top weight of 58kg and forced to race against her usual pattern due to the hot early speed, Fituese relaxed well for Rachel King and zoomed late to nail Hilo (Lonhro) in the final bound at Rosehill.

The Everest hopeful was foaled by Cattalo (Tiger Hill) who was purchased by Lynward Park for \$30,000 at the 2016 Inglis Easter Broodmare Sale. She was positive to Deep Field and delivered Fituese the following September at Bullsbrook.

Lynward Park sold the filly as a foal to NSW breeder Robert Dawson and she changed hands again through the Western Breeders Alliance draft to the 2018 Perth Magic Millions Yearling Sale. Prime Thoroughbreds manager Joe O'Neill was the successful bidder and she returned east, this time on four legs, for \$55,000.

Fituese has won 6 of her 9 starts and Thompson conceded her latest victory did not go according to plan.

"She's so good and so adaptable. She missed the kick so Rachel (King) let her relax. Rachel said it was really nice to feel that engine and turn of foot."

Cattalo is now owned by Rod and Tania Cosgrove at Mingenew and she has a 2yo filly and yearling filly by Lynward Park sire Mahuta. He stands for a \$3,300 service fee with Bondi who is booking at \$5,500. Both fees (inc GST).

# Carnival calling *Captain Burglar*

Trainer Neville Parnham labelled Captain Burglar a carnival horse after he resumed a winner in the Free Entry to Belmont Maiden (1200m).

The Safeguard 3yo had to be ridden upside-down by Chris Parnham but survived after fighting off fast closers Indigo Blue (Blackfriars) and Excerpt (Snippetson) on September 9. He was racing first-up following a couple of promising efforts behind Our Boy Dylan and Charleton Eddie at Ascot in March - April.

"He's a good-looker with a bright future and I was confident today," Parnham said.

"He's a better chaser but still gave a good kick when he was left in front too early. I will talk to the owners and see what they think about giving him a let-up now.

"I'm not going to get too carried away but I think he could have WA Guineas potential."

Captain Burglar races for a syndicate managed by Peter Diamond after being knocked down for \$100,000 at the 2019 Perth Magic Millions. Bred and sold by Mogumber Park, his dam

Cool As Oh (Octagonal) is a half-sister to Love Comes To Town (G2 VRC Wakeful Stakes).

Mogumber proprietors Colin Brown and Fiona Lacey stand Safeguard in association with leading owner Santo Guagliardo. He was WA Champion 2YO sire and First-Season sire in 2018-19 and continues to go from strength-to-strength at Bullsbrook.

Safeguard (Exceed And Excel) has built some very successful stats from that first crop. They include 74% winners-to-runners and a 57% winners-to-foals strike-rates! The only horse to miss a place was a filly that was injured and retired after her only start.

Overall, his two crops are running at an 11% stakes performers-to-runners strike-rate.

Mogumber Park stands Safeguard for a \$5,500 service fee beside Rommel (\$4,400) who has his first 2yo crop ready to run this season. His first to appear at the new-season barrier trials was Rommel's Command, a Martin Allan-trained colt who finished third in a Belmont hit-out over 400m.

# Munce mare a stakes-winning *Skater*

Skate To Paris became the 10th individual stakes winner by Yarradale Stud stallion Bradbury's Luck at Doomben last month.

The Chris Munce-trained sprinter-miler continued her rich vein of form with a three-length victory in the LR Brisbane Quality (1630m). She has earned \$188,000 in her last four outings which included an Eagle Farm double and a last-start second to The Candy Man.

"What a mare! It was good to see her win black-type for the owners, too," Munce said.

"She's been up for a while but really enjoys stable life. She just bounces around and loves all the attention."

Skate To Paris (6m Bradbury's Luck – Paris Blu by Murphy's Blu Boy) settled off the pace from a wide gate but was a class above her rivals when asked to quicken. "That was an amazing win," Munce continued.

"She's hard and fit and only needed an ounce of luck from the draw. Larry (Cassidy) found a spot midfield and she did the rest.

"The Magic Millions Raceday on the Gold Coast is her long-term goal in January. It's hard to tip them out while they're winning but she will have to have a break sooner rather than later."

Her dam Paris Blu is from the family of G2 Hollindale Cup winner Super Slew. She won 6 races and over \$200,000 but that has been well and truly usurped by her daughter who has now earned \$536,000.

Bradbury's Luck latest 2yo crop got cracking on September 7 when Tiny'N'Tuff won a Lark Hill trial for trainer Dion Luciani. Some of his other named youngsters include Twice Lucky and Maarie.

Twice Lucky (2c ex Storm Sense by Street Sense) is with Rhys Radford and he's from a Belmont winning daughter of Metallic Storm (LR Placid Ark Stakes). Maarie (2f ex Lauradane by General Nediym) is being prepared by Justin Warwick and she is out of a Belmont winning daughter of Rose Of Dane (LR Summoned Stakes).

Bradbury's Luck (Redoute's Choice) stands for a \$3,300 service fee at Yarradale. The Gidgegannup stud's roster is headed by War Chant (\$11,000) and also includes Gingerbread Man (\$5,500) and Heritage (FOA). All fees (inc GST).

### Final

***Regional Championship Final to be held at Ascot on 28 November 2020***

**\$100,000 Special Conditions – 60+ Handicap, 1200 metres (Apprentice jockeys cannot claim their allowance)**

1st \$59,000; 2nd \$20,000; 3rd \$9,000; 4th \$4,000; 5th \$2,000; 6th - 10th \$1,000

Horses in this field have qualified by competing in a Regional Championship heat in this series. See full list of conditions in following page.

### Qualifying Conditions

To be eligible for **The Regional Championship** horses must be recorded by Racing Australia as being under the care of a RWWA-licensed trainer within that region prior to Sunday 27 September 2020. However, any such horse that transfers stables to an alternate region on or after Sunday 27 September 2020 will be ineligible to compete in any heat.

Horses may only compete in the heat associated with the region in which that horse is trained – for example, an Albany-trained horse may only compete in the Great Southern heat. Any trainer who has multiple stables registered with Racing & Wagering Western Australia (RWWA) may only start horses in one of the series heats.

Horses must have had two of their last three race starts at a WA race track other than Ascot, Belmont, Bunbury, Pinjarra or Northam prior to the heats.

**The Regional Championship Final** will comprise 15 runners – determined by the point system below.

1<sup>st</sup> – 10 points, 2<sup>nd</sup> – 9 points, 3<sup>rd</sup> – 8 points, 4<sup>th</sup> – 7 points, 5<sup>th</sup> – 6 points, 6<sup>th</sup> – 5 points, 7<sup>th</sup> – 4 points, 8<sup>th</sup> – 3 points, 9<sup>th</sup> – 2 points, 10<sup>th</sup> – 1 point.

The first five horses in each heat will gain automatic entry into the final. In the event that any of the 15 automatically qualified horses cannot contest the final, RWWA will offer the vacant spot in the field to the next highest point scorer. If equal on points, preference will be given to the horse that competed in the heat of the vacated horse. In the event of multiple runners having earned the same points and neither is from the region of the vacated horse, the horse with the highest rating will secure automatic entry into the final. If both such horses have the same rating, horses will be balloted by total prizemoney earned. If total prizemoney earned is equal, horses shall be eliminated by lot. All horses that compete in a heat are eligible to start in the final but they will be subject to the balloting conditions of the series

Any horse that gains automatic qualification into **The Regional Championship Final** will be required to start in the final unless a veterinary certificate to the satisfaction of RWWA Stewards is provided stating that it is unfit to race. Any further nominations for qualified horses at any other meetings prior to December 6 will be refused.

Up to four emergencies will be declared for **The Regional Championship Final**. Emergency runners shall comprise the next four highest point scorers, with the same methodology used as above to determine the emergency securing a start.

Any horse who becomes eligible to compete in **The Regional Championship Final** will only be permitted to accept under the name of a licensed trainer who is located in the same region as the heat in which the horses ran.

In the event of a qualified horse winning a metropolitan race prior to the series final that horse will be ineligible to start in the final, with the next eligible horse outlined in the conditions above gaining automatic entry into **The Regional Championship Final**. Regional ratings will be used for all heats and the final.

RWWA will have the ultimate call on eligibility in the event of any discrepancy. RWWA may, at its absolute discretion, alter any conditions or elements of **The Regional Championship**.

**MOTIVE TRAVEL**

**All of us at Motive Travel hope you are coping well with the way we are currently have to live our lives.**

Looking ahead, there is no map, no charts or instruments to assist us to get to the other side of this pandemic but let's hope our lives return to normal sooner rather than later.

We have spent many months working hard on behalf of our clients, cancelling bookings & requesting refunds through various suppliers with ever-changing policies and procedures. To say that it has been a challenging time is an understatement.

As you can imagine, our industry has been decimated more than any others, so I am asking for your support now more than ever.

No matter what your requirements are, whether you're visiting the South West, Exmouth, Broome or

another part of our great State, please contact us as we have some very attractive rates at numerous properties. Or if you prefer to stay in Perth, we have access to some exceptionally good rates at Crown Towers.

If it's only a flight you need to visit our North-west for work or pleasure, we can take care of these travel needs also.

Our highly experienced and knowledgeable staff still love coming to work to assist as required and would love to hear from you soon to assist with any intrastate bookings in the short term and here's hoping interstate borders open soon to allow us all to get to enjoy other parts of our wonderful country.

So when your mood for travel is back, or you hear of friends or family who wish to travel, please remember us at Motive Travel. We would really appreciate your support.

# GENERAL RACING AND TRAINING CONDITIONS

## RULES

All race meetings in Western Australia shall be held under the Rules, Regulations and Conditions of Racing and Wagering Western Australia (RWVA).

## POWERS OF RWVA

RWVA reserves the right from time to time to alter the date of running to make any alteration or modification in the programme, including the sequences or times of the races; to alter the dates and times for taking entries, the declaration of handicaps and acceptances, to vary the amounts of prize-money, forfeits and acceptance fees advertised, or the distance of any race; to combine any two races on such conditions as RWVA may think fit; to extend the time for taking entries in the case of insufficient entries and call further entries; to delete a race from the program; to impose any other conditions, regulations and directions the Committee or Stewards may consider necessary; to change the venue of the meeting should it consider the conditions existing so warrant or to cancel the meeting for any reason thought fit.

## LIABILITY DISCLAIMER

Notwithstanding that it or he may have acted negligently neither the Club, Chairman, RWVA nor any member of these bodies nor any officer, agent, independent contractor or employee shall be under any liability to any person for any loss, damage or injury (including death) of or to any horse or person while on any premises of the Club or while on any approach thereto or while using any facility provided by the Club or while in the custody or control or under the direction of any officer, agent, independent contractor or employee acting in the course of his duty as such officer, agent, independent contractor or employee.

## IMPORTED HORSES

Any owner, or trainer who nominates a horse which has raced outside the State of Western Australia shall:

- (i) lodge with Racing and Wagering Western Australia at or before the time of starting of the race in which it is entered, a clearance from the Principal Club in whose territory such horse last raced or from an Association recognised by such Principal Club, and
- (ii) for the first nomination of such horse for any race in this State, supply at or before the time of closing of entries, particulars in writing of all its wins and of its last six performances and for any future nominations by subsequent performances of such horse until its first start in this State provided that where the weights for a race are declared within twenty four hours of the closing of nominations the aforementioned details shall be supplied at least twenty-four hours before the time of closing of such entries.

## CLUB NOT LIABLE FOR ENTRY

Neither RWVA, the Club nor the Secretary shall in any way be responsible for any errors which may occur in any entry, acceptance or other form filled in by any Official at the request of the nominator or trainer or the agent of any nominator or trainer.

## BOUND BY RULES

Every nominator and trainer whose horse is entered for any race. Whether such entry is made by the nominator or trainer or the agent of any nominator or trainer or any Official at the request of or on behalf of any nominator, trainer or agent, shall be bound by the RWVA Rules and Regulations and the By-Laws and Conditions of the Club.

## GROUP, LISTED & PRIME METROPOLITAN RACES

In Group/Listed races or any prime metropolitan race in which horses older than three can compete, entries are accepted on the condition that the nomination or declaration of acceptance for any horse may be rejected by the Handicapper.

## DISCRETIONARY BALLOTING

In any race where discretionary balloting is to apply, the Committee may, in the event of the number of horses exceeding the safety limit at the barrier, in its absolute discretion, irrespective of a horse's weight, eliminate any horse or horses from the race and/or exclude any horse or horses from the operation of the usual balloting conditions.

## DOUBLY ENGAGED

No horse shall run more than once on the same day at any meeting.

## PENALTY

Except where otherwise stated, the winner of any race or races after the declaration of weights, shall carry such penalty (if any) as the Handicapper may impose for each win.

## RACE DIVISIONS

Where the division of a race will result in more races being conducted at the meeting than that funded by RWVA, then a minimum of 75% of the original advertised prize money must be offered for each division. Each division shall be worth an equal amount. The division of any race must be approved by the RWVA Racing Manager.

# BALLOTING CONDITIONS

Where the number of horses in any race exceeds the number set down by the Stewards or Committee of the Club RWWA may, except where special balloting conditions apply, implement any or all of the following conditions to eliminate horses to meet the limits.

- (a) Subject to the provisions of LR51A (1) any horse considered a final acceptor for more than one race at the same meeting shall be withdrawn from the race with the higher number of acceptors. Provided that horses will always be withdrawn from a non-feature race and not be withdrawn from a Group, Listed or other race advertised as Discretionary Balloting. A horse declared an emergency runner in any race may be engaged as an acceptor for another race at the same meeting.
  - (b) Any horse engaged to run at a meeting that has already accepted will be relegated to the lowest emergency position in any subsequent race that horse is entered for. Provided that horses will be exempt from this clause if the subsequent race is a Group, Listed or other race advertised as Discretionary Balloting.
  - (c) In the event of the time for nominations being extended because of insufficient entries (or some other reason), any horse which had been nominated by the inaugural nomination time shall be given preference for a start over any horse which was nominated after the time for extending entries was announced, except when the horse is engaged to run at a meeting that has already accepted.
  - (d) Any horse classified by the Handicapper below the declared minimum weight shall be eliminated in order of the Handicappers rating. Horses with the same rating will be separated at the Handicapper's discretion. The Handicapper may, at his discretion, elevate any horse in the ballot, irrespective of that horse's rating, to correct an obvious anomaly in the ballot. For ballot purposes, the rating of all fillies and mares is increased by 4 points to recognise the 2kg sex allowance
  - (e) Any maiden horse nominated to run in a handicap race will be relegated in the ballot below horses that have already won a race, unless the maiden horse was placed second or third within its last three starts where it will be balloted by the Handicappers rating. Maiden horses relegated under this clause will be balloted in accordance with the standard maiden balloting conditions listed below under section (I).
  - (f) Notwithstanding the foregoing conditions RWWA and the Committee of the Club may, in its absolute discretion, eliminate any horse or horses from a race, and/or exclude any horse or horses from the operation of any or all of the preceding elimination conditions, irrespective of the age, allotted weight or Handicappers rating of the horse concerned.
  - (g) RWWA reserves the power to make provision for the naming of horses as Emergency Runners subsequent to any ballot; provided that when it is determined that a race shall be run in two or more divisions at close of nominations, the Emergency Runners named in any division may be placed in any other division to take the place of horses withdrawn at time of final acceptances.
  - (h) RWWA and the Committee of the Club reserves to itself the power to transfer the nomination of any horse balloted or withdrawn from the race in which it was entered to a suitable race on the same day, or another meeting where entries close on the same day. Provided that where a horse has not been withdrawn from the race prior to the time appointed for final acceptances the acceptance of the horse so transferred shall be taken as the nominator's approval of such transfer and for the purpose of eligibility, qualification or race conditions shall be deemed to have been nominated in the race to which it was transferred. Further provided that where the other horses in such race have not been withdrawn prior to the time appointed for final acceptances, the acceptance of such horses shall be taken as confirmation of the nominator's approval of the transfer of the horses concerned.
  - (i) RWWA reserves to itself the power to extend the acceptances of any given race and allow any horse withdrawn between release of weights and original scratching time to be reinserted into the field prior to the release of acceptances.
  - (j) No liability shall be incurred to the nominator of any horse or to any other person in consequence of or by reason of any departure whether intentional or otherwise from these conditions.
  - (k) In any case not provided for under the Rules, the decision of RWWA shall be final.
- (I) MAIDEN RACES
- i. Horses which have not received prize money within their last 5 starts to be placed in order of total number of starts.
  - ii. Horses which have received the lowest aggregate prize money within their last five starts. Horses with equal aggregate prize money to be placed in order at the Handicappers discretion.
  - iii. Horses which have had two unplaced race starts.
  - iv. Horses which have had one unplaced race start.
  - v. Unraced horses. (Horses placed first in trials will take preference over trial placegetters. Trial placegetters will take preference over unplaced trial runners. Horses which need to be separated within trial categories shall be done so at the discretion of the Handicapper ie: Trial winner category, trial placegetter category etc.)
  - vi. Horses which have earned prizemoney by placing 2nd – 5th in a prime metropolitan race within their last 3 starts; or have earned prizemoney by placing 2nd – 4th in a provincial or midweek metropolitan race within their last 3 starts; or have earned prizemoney by placing 2nd – 3rd in a country race within their last 3 starts. Horses to be placed in descending order of prizemoney earned in last 3 starts.

\* In balloting maiden races prizemoney for placings 1st to 6th only is taken into account.

## TRAINER & OWNER REFORMS (TOR)

### NOTICE OF AMENDMENTS TO CO-OWNER AGREEMENT (COA)

#### Summary:

Since the commencement of the TOR in August 2017, Racing Australia has been continually monitoring the effectiveness of its processes and agreements, including via feedback from Principal Racing Authorities and industry participants.

Racing Australia is now amending the COA to address issues that have arisen during the TOR's first year of operation.

A summary of the amendments to the COA is set out below.

- **Clause 1.1 & 1.2** – To identify the effective date (1 August 2018) of the revised COA.
- **Clause 3.6(d)** – Proviso that where owners with 50% ownership of a horse wish to accept a trainer's fees notice, and owners with the other 50% ownership wish to object to the fees notice, the managing owner must object on behalf of the owners.
- **Clause 4.3** – To clarify the sale process where an owner wants to sell only their interest in the horse, as opposed to where the ownership group (with majority consent) wants to sell the whole horse.

The revised COA is available at [www.racingaustralia.horse](http://www.racingaustralia.horse)

**Date of effect: 1 August 2018**

### NOTICE REGARDING THE NUMBER OF MEMBERS IN A SYNDICATE AND NEW RULE IN RELATION TO SECRET COMMISSIONS

#### NUMBER OF MEMBERS IN A SYNDICATE

Racing Australia previously made an amendment to AR.69(c) to correlate with ASIC's decision to increase the maximum number of members in a registered syndicate from 20 to 50 (for the purposes of obtaining exemption from a number of the provisions of the Corporations Act in respect of managed investment schemes).

Syndicates containing from 20 to 50 members are restricted to those entitled to exemption under ASIC Corporations (Horse Schemes) Instrument 2016/790 (or any instrument, regulation or class order that replaces or supersedes that Instrument).

Any queries in regard to the number of members permitted in a Syndicate should be directed to the RWWA Licensing and Registration Department

Provided the syndicate has been registered in accordance with the Rules of Racing and complies with the Regulations."

#### RULE AR.48 IN RELATION TO SECRET COMMISSIONS

This rule deals with the issue of Secret Commissions in racing.

This new rule applies to all those involved in the selling and trading of Thoroughbreds. Any such person must not receive, solicit or offer any payment or benefit that has not been fully disclosed and consented by all parties involved in the ownership, sale and purchase of that horse.

Please refer to the RWWA Rules of Racing that appear in the Industry - Integrity section of the RWWA website for details of the wording of AR.48.

### PRE-ACCEPTANCE FINANCIAL INFORMATION REQUIREMENTS (GST COMPLIANCE)

When participants win stakes, bonuses or are paid any fees, a financial transaction has occurred that requires the correct treatment of GST. In order for this to take place all participants are required to submit a completed GST Declaration Form, prior to racing, so that the appropriate payment calculation can be made when stakes are processed. This form also provides RWWA with the participants banking information to make a timely payment.

If RWWA does not have completed GST Declaration Forms, the ATO require that RWWA withhold payments at a rate of 46.5% (highest tax rate) and forward to the ATO, when a GST Declaration Form has not been completed. This is a requirement under the GST Act and participant can obtain this information under the NAT 3346 guidelines on the ATO website. These funds can then be claimed as a credit by the participant in their annual income tax return.

In order to avoid payments being withheld, it is vital that your completed GST Declaration Forms is submitted prior to acceptance for a race. RWWA is currently working on system changes to implement this.

### TRANSFER OF OWNERSHIP

Funds are often withheld at the request of the 'new' owner when a transfer of ownership has taken place, as the outgoing owner has not submitted the paperwork to RWWA's Licensing & Registrations Department within the correct time. There are specific rules that apply to each code in the treatment of transfers. These being;

Harness Rule 109 - the paperwork must be submitted within 7 days of entering into a lease or prior to the horse next racing, whichever is earlier and Rule 111 in respect to a transfer of ownership.

Thoroughbred AR.34 - in respect to a lease the Principal Racing Authority may refuse to accept for registration any lease, and may insist on the inclusion in a lease of provisions it considers essential.

Greyhounds R117 - within ten (10) days lodge a prescribed transfer of ownership form and Rule 119 in respect of a lease.

These rules will now be enforced so that the owner recorded with RWWA at the time of racing will be paid any monies earned. Payments will no longer be held due to paperwork not being lodged within the required time. With regard to licences, GST forms must be included with each Lease or Transfer submitted to RWWA.

### LEADING OF TWO OR MORE HORSES

Local Rule 124 states:

Leading of Horses

1. The practice of leading two or more riderless horses at the same time is prohibited
2. The Stewards may penalise any person breaching this rule or found responsible for a breach of this rule

The rule prohibits any person from leading two or more riderless horses at the same time at any place or time.

### TRAINER'S RESPONSIBILITY REGARDING 'NOTIFICATION OF ANY HORSE'S ILLNESS, CONDITION OR OCCURRENCE THAT MAY AFFECT ITS RUNNING IN A RACE'.

Trainers are reminded of the provisions and potential implications of rule of racing, AR.140.

X`The following are examples of, but not limited to, conditions or occurrences requiring notification to Stewards under the provisions of this rule;

- Any surgery aimed at correcting a condition that may have

# NOTICES

adversely impacted a horse's prior performances i.e. upper respiratory tract surgery or surgery to correct lameness, limb inflammation/pain or gait dysfunction.

- A horse is required to have a long period of rest to heal a pre-existing injury i.e. tendon/ligament strain.
- Lameness or musculoskeletal inflammation/pain.
- Injury to any part of the body which could potentially adversely impact on the horse's performance or consist of a welfare or public perception issue on race day, or have resulted in an interrupted preparation.
- Any condition or occurrence that has resulted in a horse missing consecutive days of normal exercise or sufficiently interrupted, and thus adversely impacted, a horse's preparation for its next race.
- Any systemic illness that has adversely impacted on a horse's health or wellbeing or may have resulted in an interrupted preparation i.e. colic attack, any illness causing loss of appetite.

## IMPORTANT CHANGES TO THOROUGHBRED REGISTRATION ARRANGEMENTS

Thoroughbred Racing participants using the RWWA CRIS site would have noticed the below link from Racing Australia (RA). Racing and Waging Western Australia (RWWA) wishes to confirm important changes to registration functions.

From 1 December 2019, administrative duties attached to registration queries and applications will be moved from RWWA to Racing Australia (RA).

This is being done to help facilitate a more streamlined registration process for industry participants.

While RWWA will retain the functions of New Jockey Silk Applications and Promotor Syndicates, all applications for Transfer of Ownership, Syndicates, Leases, Jockey Silk Renewals, Change of Percentage, Change of Share, Deceased Estates, Banking & GST, will be received and processed by RA.

These documents will be able to be processed online or by lodging them direct to RA by email [deputyregistrar@racingaustraliahorse.com.au](mailto:deputyregistrar@racingaustraliahorse.com.au). RA can be contacted via their website, email or by phone 1800 870 799.

## TRANSFER'S OF OWNERSHIP - POLICY ADVICE

It is a requirement under the Rules of Racing for the name or names of every person or persons having any share or interest in the ownership or lease of a horse to be declared to RWWA prior to racing. Back-dating transfers or similar where such dates retrospectively affect the ownership of a horse in a race already run is therefore contrary to these principles. Furthermore once payments have been correctly made by RWWA based on recorded ownership details, it is impractical to attempt to re-allocate stakes to revised owners after the event.

Industry participants, in particular those involved in horse ownership, are therefore advised when completing the required Application to Transfer (or similar document that alters the official recorded ownership,) the Date of Transfer cannot be dated prior to the horse's last race start. The practice of back-dating the Date of Transfer so as to include dates where the horse has already raced will not be accepted and instead the Date of Transfer will be given the effective date of processing. Where race starts are not included in any back-dating then the indicated Date of Transfer will be recorded.

This policy shall be consistently applied across all codes.

## SPECIAL NOTICE TO ALL RACE CLUBS, LICENSED TRAINING VENUES, TRACK MANAGERS AND TRAINERS.

Section 22 of the Occupational Health and Safety Act 1984, places certain obligations on persons in control of a workplace that may relate to Clubs and Training tracks in the following terms:

22. Duties of persons who have control of workplaces

(1) A person that has, to any extent, control of —

# THE RACES WA NOTICES

(a) a workplace where persons who are not employees of that person work or are likely to be in the course of their work; or

(b) the means of access to and egress from a workplace, shall take such measures as are practicable to ensure that the workplace, or the means of access to or egress from the workplace, as the case may be, are such that persons who are at the workplace or use the means of access to and egress from the workplace are not exposed to hazards.

(2) Where a person has, by virtue of a contract or lease, an obligation of any extent in relation to the maintenance or repair of a workplace or the means of access to and egress from the workplace, the person shall be treated for the purposes of subsection (1) as being a person that has control of that workplace or that means of access or egress.

(3) A reference in this section to a person having control of any workplace or means of access to or egress from a workplace is a reference to a person having control of that workplace or that means of access or egress in connection with the carrying on by that person of a trade, business or undertaking (whether for profit or not).

(Sections 4-6 repealed)

(7) This section does not apply to a person whose duties are set out in section 20.

Where a trainer engages a person to carry out any type of work either inside or outside his/her premises and the person suffers an injury or disease as a result of that engagement and the injury or disease is of a prescribed nature it must be reported forthwith to WorkSafe. The kinds of injuries to an employee which must be notified are:

- A fracture of the skull, spine or pelvis
- A fracture of any bone in the arm other than in the wrist or hand and any bone in the leg other than in the ankle or foot;
- An amputation of an arm, hand, finger, joint, leg, foot, toe or toe joint;
- The loss of sight of an eye;
- Any injury other than those referred to above which, in the opinion of a medical practitioner, is likely to prevent the employee from being able to work within 10-days of the day on which the injury occurred.

Section 35 (1)(a) & (d) of the RWWA Act 2003 prescribes that it is a function of RWWA to "(a) control, regulate and supervise racing in the State" and "(d) to supervise racing clubs and their affairs." Further Section 43 provides RWWA with authority to issue directions to a racing club or an allied body to carry out works to improve safety at racecourses or training tracks and obligates such clubs to comply with any such directions.

In order to ensure proper discharge of its legislated functions, RWWA directs that all race clubs, managers of training venues and Trainers notify RWWA Stewards of any diseases or injuries of the nature of the above sustained by jockey's, driver's or any other registered persons whilst engaged in activity regulated by licence that occurs at their venues. It is not intended that this alleviates race clubs, manager's of training venues or trainers of any legal responsibilities they may have under other Acts, such as the OHS Act 1984, however ensures RWWA can discharge its functions in relation to racing in Western Australia and ensure the proper investigation and reporting of these incidents to WorkSafe.

## DISPUTE RESOLUTION - ONE CENTRAL POINT FOR LODGEMENT OF COMPLAINTS

From time to time RWWA customers seek assistance in resolving disputes regarding horse ownership, the training of horses, unpaid accounts etc.

The Racing Integrity Department (Stewards) understand how difficult, at times, it is for these matters to be settled amicably and can offer advice, and to some extent assistance, on how these matters may be

resolved.

Any queries in regards to disputes of this nature should be directed to the Integrity Operations Coordinator - Mark Kemp on 9445 5227.

Notwithstanding the wide powers of RWWA and its officials, particularly the Stewards, have under the Rules those powers do not extend to dispute resolution to the extent that Stewards can compel a party to act in any way not specifically outlined in the Rules themselves. Neither do the Stewards have authority to force a person to sign away or forsake a share or interest in an animal, which has been afforded to them in accordance with the relevant Rules of Racing, or make any orders with respect to compensatory payments. This should not deter a person contacting the RWWA Integrity Department (Stewards), on the above number, who will provide advice in terms of Rules and RWWA procedures and policies and ensure these are being complied with. Matters that cannot be resolved through the application of the Rules and policies, become a civil dispute between the parties which must be resolved accordingly.

Unless a dispute involves an alleged breach of the Rules, RWWA and its officials will not become directly involved. The exception is where a dispute is the subject of proceedings at law, in which case RWWA and its officials will be guided by any decision of a court.

Any complaint against a person for an alleged breach of the Rules must be made in writing and directed to the Chief Steward of the respective racing code.

## SYNDICATES & PARTNERSHIPS

All current and prospective syndicate or partnership members should be aware of the ramifications of buying shares in a racehorse.

The promotion of a scheme which sells shares in a racehorse is subject to Corporations Law and there are significant penalties for schemes that are found to be operating contrary to the law.

Importantly the laws are in place to provide protection for persons who may purchase an ownership interest in a racehorse which is offered in such a scheme.

A horse racing syndicate must be registered with the Australian Securities and Investment Commission (ASIC) before it can operate if it is a "managed investment scheme" (MIS) for the purposes of the Corporations Act. This will generally be the case if the syndicate:

- has more than 20 members; or
- is promoted by a person in the business of promoting syndicates

unless the investors in the scheme are "wholesale clients" for the purpose of the Corporations Act.

The promoter is required to have an Australian Financial Services Licence (AFSL).

A promoter of a syndicate can avoid the requirement to register a managed investment scheme with ASIC if it registers as an approved promoter with RWWA. Once approved by RWWA, the promoter can then apply to ASIC for an AFSL.

RWWA is a Lead Regulator and as such is required;

- (a) to keep a register of all promoters of horse racing schemes to which the co-regulation arrangements applies;
- (b) to register schemes which the lead regulator has agreed to regulate;
- (c) to ensure that a promoter's disclosure statement or offer document contains sufficient information to allow investors to make an informed decision and to check the accuracy of this information;

## HORSES CANNOT RUN MORE THAN ONCE ON THE SAME DAY

No horse shall run more than once on the same day at any meeting except at meetings conducted by the following club:

Landor (East Gascoyne Race Club)

## VETERINARY NOTICES

Trainers are reminded that all race horses must be presented to race free of prohibited substances. For advice concerning the use of therapeutic products that may contain prohibited substances trainers should consult their stable veterinarian, or contact the RWWA Veterinary Department on (08) 9445 5459 or (08) 9445 5305.

### ARSENIC - Notice to Horse Trainers

Trainers and industry participants are reminded that Arsenic is a prohibited substance under both the Harness and Thoroughbred Australian Rules of Racing, when found at a level above the threshold value of 0.30 milligrams per litre in urine.

Arsenic is a chemical element which occurs in many minerals and trace amounts may be present commonly in feeds and in groundwater in the environment.

Registered veterinary products that contain Arsenic based compounds include:

Arcyl Solution for Injection Ferrocyl injection

Troy Invigorate Injection Jurocyl Injection.

Horse trainers are therefore reminded to avoid using these preparations close to racing, and a useful guideline is not to administer them following a single dose within a 5 clear day period before racing. Multiple administrations will prolong this period, so extreme caution must be exercised if administering them on consecutive days. The administration of any of these preparations must be recorded as treatment in a trainer's medication log book.

A recent Australian study concluded that it is possible that Arsenic levels in horse urine may be elevated following the ingestion by a horse of Chromated Copper Arsenate (CCA) treated pine timber, a common component of horse stables and paddock fencing.

Consequently, RWWA Stewards advise that it would be prudent for trainers and industry participants to conduct an environmental audit of their facilities to ensure they eliminate access of the racehorses in their care to CCA treated pine timber products, or any other product that may present a similar risk of an elevated Arsenic level in any race day sample.

RWWA Stewards recently concluded several inquiries into matters relating to the presentation of horses by trainers with Arsenic levels above the threshold. In those matters a conviction without penalty was recorded and the horses concerned were disqualified. RWWA provides notice to trainers and industry participants that future action taken by RWWA Stewards, in matters relating to the presentation of horses with Arsenic levels which exceed the threshold, may result in penalties being imposed, regardless of any evidence relating to ingestion of CCA treated timber products or any other source.

Queries can be directed to your Veterinarian or the RWWA Veterinary Department on (08) 9445 5459.

22 February, 2018.

### COBALT - NOTICE TO TRAINERS

Cobalt is a naturally occurring trace element which may normally be present in horses at very low levels as a result of the ingestion of feedstuffs that contain it in trace amounts. Cobalt is also present in the structure

of vitamin B12 (cyanocobalamin). However, it is known that excessive amounts of cobalt have an effect on the blood system and therefore it can also be considered as a prohibited substance according to the Rules of Racing when it is at levels above those naturally occurring or as a result of routine nutritional sources, thus a threshold level was introduced into the rules of racing to control the use of cobalt in race horses.

The rules of racing prescribe a threshold limit for cobalt in race day urine samples at 100 micrograms per litre and in race day plasma samples at 25 micrograms per litre.

Therefore trainers are advised:

- That a normal racing diet is more than sufficient to meet a horse's nutritional requirements for cobalt and vitamin B12.
- That registered injectable cobalt supplements offer no nutritional advantages because incorporation of cobalt into the vitamin B12 molecule occurs within the horse's gut.
- To consult with their veterinarians to ensure that their oral supplementation regimen provides only the amount of cobalt necessary to meet the scientifically established nutritional requirements of the horse for cobalt.
- To administer only nutritional supplements that are manufactured or marketed by reputable companies and to administer such supplements only at the manufacturer's recommended dose and frequency of administration.
- To avoid the simultaneous use of multiple supplements containing cobalt and vitamin B12.
- That administering products that are inadequately labelled, that make claims to enhance racing performance or to be 'undetectable', or which are marketed over the internet is extremely unwise.
- To comply with the one clear day restriction on the injection of any substance prior to racing.

Whilst the threshold has been set at a level to allow for normal levels of cobalt supplementation through routine nutritional sources, trainers are advised that the administration of certain registered vitamin supplements, particularly by injection, close to racing may result in a level of cobalt in a subsequent sample that exceeds this threshold. Trainers are therefore advised to avoid the use of these supplements close to racing.

Examples of injectable vitamin supplements that contain cobalt and/ or vitamin B12 include, but are not limited to, V.A.M. injection, Hemo-15 and Hemoplex

### No injections within one clear day prior to racing

The rules of racing make it an offence for any person (including a trainer, anyone else in charge of a racehorse or a veterinarian) to insert a hypodermic needle into a horse within the one clear day prior to a race

By way of example, if a horse is racing on a Saturday, the last time that the horse may be injected is midnight on the Thursday prior to the race. The horse must not be injected on the Friday or at any time on the Saturday prior to the running of the race. The one clear day ban on injections prior to competition includes, but is not limited to, the administration by injection, whether intravenously, intramuscularly, subcutaneously or any other route, of the following medications and substances:

- intravenous infusions, fluids and electrolytes;
- vitamin and mineral supplements;
- haematopoietic (blood building) agents;
- all Schedule 4 Prescription Animal Remedies and Prescription Medicines for injection; and
- any other agents for administration by injection.

However, it is noted that, for the purpose of proving a breach of AR178AB, it is not necessary to establish what (if any) substance was injected, or was attempted to have been injected, into the horse.

Importantly, under the new rule, a person must not, without the permission of the Stewards, insert a needle into a horse for the purpose of blood sampling for health and fitness assessment during the one clear day prior to a race. The obvious exception to the Rule is the collection of official pre-race or out-of-competition blood samples at the direction of the Stewards for the purpose of drug analyses.

**IMPORTANT NOTE:** The timing of the administration of many injectable products will be determined by the detection periods for the prohibited substances contained in those products. In most cases, the detection periods will be in excess of the one clear day prior to competition.

# VETERINARY NOTICES

## TESTING OF NON-RACE DAY (ELECTIVE) SAMPLES

Trainers should be aware that unpredictable and prolonged excretion times can result from the therapeutic use of certain, specific prohibited substances including long-acting corticosteroids (particularly Depo-Medrol - methyl-prednisolone acetate) and procaine, from the use of procaine penicillin.

Elective testing is strongly recommended for the above drug categories as reliable detection times are difficult, and in some cases impossible, to provide.

Through the Stewards, the Racing Chemistry Laboratory (RCL) will analyse non-race day elective urine samples for certain long-acting therapeutic drugs.

The purpose of this service is twofold. It allows trainers to determine the suitability for racing of an animal after the administration of long-acting medications; or where an animal has been transferred from the premises of another trainer.

The following long-acting drugs can be tested for under the program:

- Corticosteroids (i.e. Depo-Medrol)
- Procaine (from procaine penicillin)

Trainers and veterinarians are encouraged to use this service; however, it does not remove the responsibility, under the Rules of Racing, for a trainer to present all animals under their control free of any prohibited substances on race-day.

### a) Sample Submission

1. Urine is required for testing unless specified otherwise.
2. Samples are submitted through the RWWA Stewards or Veterinary Department.
3. Stewards/RWWA Veterinarians must be advised prior to sample submission.
4. Trainers will be charged through the RWWA accounting system.
5. Samples should be submitted in a clean jar/container with lid or a urine collection bottle available from the Stewards.
6. The following details must be supplied when samples are submitted.
  - Animal name and sex.
  - Drug name/s for which the sample is to be tested.
  - Treatment details i.e. drug/dose/date administered.
  - Trainer's name and contact details
7. Stewards will advise trainer when results are received

Cost of sample analysis (all prices include GST)

- \$200.00 per drug category when received at least 2 working days prior to the day of the race.
- For further information contact the RWWA Veterinary Department 9445 5459 or Stewards

## VETERINARY NOTICES

### Screening limits do not affect liability

The implementation of screening limits in racing is not intended and

does not operate to mean that for the purpose of the Rules of Racing the therapeutic substance only becomes a prohibited substance if and when the screening limit is exceeded.

It shall not be a defence to any charge under the rules of racing that the result of any initial screening test should have been below the screening limit for the therapeutic substance in question."

### Advice of detection periods

Industry participants are advised that more information on the detection periods for many of the therapeutic drugs assigned screening limits is available on the Agrifutures

**website:** [agrifutures.com.au/rural-industries/thoroughbred-horses/](http://agrifutures.com.au/rural-industries/thoroughbred-horses/)

In making any decision regarding the administration of a prohibited substance to a horse that is entered to race, industry participants are reminded of their responsibilities in undertaking the appropriate level of due diligence and risk analysis in researching the available information on detection periods, including the seeking of veterinary advice and adding an adequate safety margin. Participants are advised to take a conservative approach, and consider all variables such as dose, length of treatment and route of administration, when calculating withdrawal times for therapeutic substances where information on detection times is available.

Participants are also advised that a best-practice approach would dictate that no medication, irrespective of its detection period, should be given within 2 clear days of racing.

### OFFICIAL RACING LABORATORIES

**"Official Racing Laboratory"** means an analytical racing laboratory which is approved by Racing Australia.

**Note:** The following have been approved by Racing Australia as Official Racing Laboratories:

Australian Racing Forensic Laboratory, Sydney

Queensland Racing Integrity Commission - Racing Science Centre, Brisbane

Racing Analytical Services Limited, Melbourne

Racing Chemistry Laboratory, Chemistry Centre (W.A.), Perth

The Hong Kong Jockey Club Racing Laboratory, Sha Tin, Hong Kong

New Zealand Racing Laboratory Services Limited, Avondale, Auckland, New Zealand

Sport and Specialised Analytical Services, LGC, Fordham, Ely, Cambridgeshire, United Kingdom

Australian Sports Drug Testing Laboratory, Sydney ChemCentre, Western Australia

National Measurement Institute (NMI), Sydney (trace element analysis)

Institute of Biochemistry, German Sport University, Cologne, Germany

Laboratory of Racing Chemistry, Tochigi, Japan (reserve portion/B sample analysis)

### CONTROL OF RACE DAY TREATMENT/MEDICATION OF RACEHORSES

With a number of Rules now restricting medication and treatments of various kinds before competition, the following are guidelines regarding medications/treatments that may be approved by the Stewards on veterinary advice when a request is made to the Stewards for permission to treat a horse on race day.

Guidelines for treatments/medications that can be permitted on race

day prior to the race – prior approval of the Stewards not required

Topical application of hoof oils/dressings/grooming products

The application of routine, non-medicated hoof oils/dressings is permitted on the day of racing. The exception is those products that contain medications or herbs that claim therapeutic effects such as analgesia or anti-inflammatory actions.

The application of commercial baby oil or petroleum jelly preparations to lubricate/prevent chaffing of a body area, or a grooming product, is permitted to be applied pre-race. Any product so used must be kept in its original container that has applied to it the original product label, must not be altered or modified by the addition of any other substance/s, and must be available for inspection by the Stewards and official veterinarian. The Stewards may take possession of any such preparation for testing for prohibited substances.

### Shampoos and fly sprays

Shampoos, including those that are antiseptic or contain an anti-fungal agent, are permitted to be used on race day prior to racing. Fly sprays are permitted to be used on race day prior to racing.

Physical therapy as treatment

Vibratory massage systems may be used in the stable on the morning of the day of the race but are not permitted on the racecourse.

The application of ice/cold water to musculoskeletal structures

The application of ice or chilled water to, or the use of whirlpool boots or systems such as "Game Ready" on musculoskeletal structures are permitted in the trainer's stables on the morning of race day but are not permitted to be used pre-race in the race day stalls on-course.

### Treatments/medications permitted on race day before the race – prior approval of the Stewards required

Other topical preparations

While creams, ointments and powders for topical use are considered to be medications, circumstances may arise when a horse suffers a minor wound that does not affect its suitability to race but would benefit from the application of a topical antibiotic or antiseptic treatment. Such a preparation must be a registered veterinary preparation or human therapeutic good which contains only an antibiotic or antiseptic as its active ingredient, and which is clearly stated as such on its product label. Any product so used must be kept in its original container that has applied to it the original product label, must not be altered or modified by the addition of any other substance/s, and must be available for inspection by the Stewards and official veterinarian. The Stewards may take possession of any such preparation for testing for prohibited substances.

Trainers must apply to the Stewards for permission to administer a topical antiseptic/antibiotic preparation before a race on race day. Horses having received such permission for the application of a topical medication must be inspected by an official veterinarian on arrival at the racecourse.

### Treatments/medications prohibited on race day prior to the race;

Routes of administration

Unless excepted in the guidelines above, any substance administered by injection, by stomach tube, by paste, by dose syringe, by topical application or by inhalation will be considered to be a treatment and just not be administered on race day prior to the race. Furthermore, there are other pre-competition restrictions on certain treatments/procedures that are imposed by AR.64G, AR.178AA and AR.178AB.

Clay poultices

Clay poultices may be applied to the legs no later than the day before racing but must be removed the morning of the race and must not be re-applied on race day before the race. All traces of clay poultices must be removed prior to arrival on-course.

# VETERINARY NOTICES

Glycerine and Vicks Vaporub®

The application of products such as Glycerine and/or Vicks Vaporub® by any means is not permitted prior to racing on race day.

Physical therapy as treatment

The following physical treatments are not permitted to be used at any time before racing on the day of a race:

- acupuncture
- laser and infra-red treatments

- chiropractic manipulations
- magnetic field therapy
- transcutaneous electrical nerve stimulation (TENS) and any other form of electrical stimulation
- Extra-corporeal shock wave treatment (ESWT)
- Shock wave treatment of racehorses is prohibited for seven clear days prior to racing

## NOTICE TO TRAINERS

### PROHIBITED SUBSTANCE – ZOLEDRONIC ACID

Racing Australia is aware that the APMVA has issued a PERMIT TO ALLOW SUPPLY AND MINOR USE OF AN UNREGISTERED VETERINARY CHEMICAL PRODUCT for Zoledronic Acid.

The substances set out in Schedule 1, Part 1, Division 1 of the Rules of Racing (i.e. Prohibited List A) are specified as prohibited substances at all times.

Racing Australia is of the view that these substances have no place in the treatment of racehorses and that their use is a risk to the integrity of racing and/or the welfare of horses.

Trainers are reminded that pursuant to Item 23 of Prohibited List A, Zoledronic Acid is listed as a prohibited substance. Accordingly, it is prohibited at all times.

Trainers are reminded of their obligations under the Rules of Racing with respect to substances that are listed in Prohibited List A, bearing in mind that any finding of guilt could result in a substantial penalty.

This includes Trainers' obligations under AR 250, which provides that a person must not have in their possession any prohibited substance on Prohibited List A or any substance or preparation containing a prohibited substance on Prohibited List A. Accordingly, Trainers are reminded that they must not have in their possession (which clearly includes being located/stored at their stables) any Zoledronic Acid or any preparation containing Zoledronic Acid.

## NOTICE TO TRAINERS

### NEW SCREENING LIMITS FOR THERAPEUTIC SUBSTANCES

On the recommendation of the Veterinary and Analytical Committee, Racing Australia is introducing the following screening limits for the therapeutic substances set out below:

- Vedaprofen – 5 ng/mL in plasma
- Dantrolene – 3 ng/mL of 5-hydroxydantrolene in unhydrolysed urine
- Firocoxib – 2 ng/mL in plasma
- Ketoprofen – 2 ng/mL in plasma under the condition of a single IV or oral dose

Note: the screening limit for Dantrolene is a revision of the current 1 ng/mL limit, thus reducing the detection time to 48 hours (as per the advice of the International Federation of Horseracing Authorities (IFHA)).

The above screening limits are consistent with the screening limits approved by the IFHA (Vedaprofen and Dantrolene) and the Asian Racing Federation (Firocoxib and Ketoprofen).

These screening limits will come into effect on **1 April 2020**.

(3) Any permission granted by the Stewards under subrule (2) expires at the conclusion of the horse's 12 year old racing season, or earlier as provided by the Stewards.

(4) Upon a horse turning 13 years of age, it is immediately ineligible to race, trial or be trained.

(5) If a horse aged 12 years participates in any race without the permission of the Stewards in accordance with this rule, or if a horse over 12 years participates in a race, the horse must be disqualified from the relevant race.

Rationale;

Racing Australia has approved amendments to AR 51 and AR 78 to improve traceability of horses retired upon turning 13 years of age.

Under the revised rule, within 1 month of a horse turning 13 (upon which it is immediately ineligible to race, trial or be trained), the manager or his or her authorised agent must notify Racing Australia of the horse's retirement.

This change seeks to ensure that racing authorities are receiving

accurate and timely information from the horse's last registered trainer or owner as to its retirement plans, including its location and the details of the person responsible for its care.

AR 78(5) has also been amended to make disqualification mandatory where a horse aged over 12 years participates in a race without the requisite permission of the Stewards.

#### **Delete and replace AR 123 as follows:**

##### **AR 123 Safety vests**

*(1) When mounted on a horse, including but not limited to in a race, official trial, jump-out or trackwork, a rider must wear a properly fastened safety vest which:*

*(a) complies with a standard prescribed by Racing Australia;*

*(b) has been approved by Racing Australia;*

*(c) is in a satisfactory condition;*

*(d) has not been modified in any way; and*

*(e) has attached to it a manufacturer's label that states that it complies with a standard prescribed by Racing Australia.*

*(2) A rider required by these Australian Rules to wear a safety vest must not have in his or her possession a safety vest that does not comply with the requirements in subrule (1).*

*(3) The Stewards may confiscate or order the satisfactory repair of any safety vest that does not comply with the requirements in subrule (1).*

*(4) If an apprentice jockey breaches subrule (1), the apprentice jockey's master and/or any other person who was in charge of the apprentice jockey at any relevant time may also be penalised unless that person satisfies the Stewards that he or she took all proper care to ensure that the apprentice jockey complied with that subrule.*

**Note:** Pursuant to this rule, Racing Australia has ordered that:

(a) the following standards of safety vests are prescribed:

(i) ARB Standard 1.1998; and

(ii) European Standard EN 13158;

(b) the following Level 1 safety vests are approved:

(i) Hows Racesafe;

(ii) Ozvest;

(iii) Racelite Pro;

(iv) Vipar;

(v) Vipar I;

(vi) USG Flexi Race; and

(vii) Airowear Swift;

(c) the following Level 2 safety vests are approved:

(i) Vipar II.

Rationale;

Racing Australia has approved the use of Level 2 safety vests by riders. However, riders may continue to use Level 1 safety vests. The rule has been amended accordingly.

The Level 2 safety vest is significantly thicker and bulkier than the Level 1 safety vest and, therefore, may not always be appropriate in Australian conditions. This is why riders may wear either a Level 1 or 2 safety vest, provided it complies with the relevant standard and has been approved for use by Racing Australia.

The only Level 2 safety vest that Racing Australia has approved for use is the 'Vipar II' (manufactured by Vipatech), which satisfies the

# AMENDMENTS TO RULES OF RACING

requirements of EN 13158:2018.

Other Level 2 safety vests which meet the relevant standard may be subsequently approved upon provision of appropriate evidence to Racing Australia.

A number of amendments have also been made to improve the readability of the rule.

## **Amendments of National (Australian) Rules applicable 1 January 2020**

Racing Australia (RA) has advised of amendments to the Australian Rules which are applicable from 1 January 2020 as follows;

### **Add;**

**qualified veterinary surgeon** means a veterinarian who is:

(a) registered with the Veterinary Practitioners Board (or equivalent regulatory body) in a State or Territory of Australia; and

(b) approved by the relevant PRA (including by way of permit, approval or licence) if required by a Local Rule of that PRA.

Rationale;

The term “qualified veterinary surgeon” is currently used in AR 34(3) (regarding horse registration) and AR 225

(regarding euthanasia).

From 1 January 2020 the term will also be used in new/amended rules which provide that:

- only a qualified veterinary surgeon can perform shockwave therapy on a horse – AR 86(4);
- only a qualified veterinary surgeon can perform endoscopy of the respiratory tract on a horse – AR 231(6); and
- a defence to blood doping offences exists where certain therapy is provided by a qualified veterinary surgeon – AR 257A.

The term is being defined in the Rules to provide clarity as to what constitutes a qualified veterinary surgeon.

In addition to having the relevant qualifications, the definition includes an additional requirement that the veterinarian

be approved by the relevant PRA if required, given such a requirement applies under the Racing NSW Local Rules.

### **Add AR 86(4)**

*(4) A person must not perform shockwave therapy on a horse unless he or she is a qualified veterinary surgeon.*

Rationale;

Nationally there is increasing evidence of the use of shockwave therapy by lay people and that this treatment is not being reported as required under the Rules of Racing; and

There are increased risks of tissue injury in horses that are subject to shockwave therapy performed by untrained lay people.

Amendment is made to restrict the performance of shockwave therapy

to qualified veterinarians only.

### **Amend AR 87 Horses that have had an intra-articular injection**

*(1) If a horse has been subjected to an intra-articular injection:*

*(a) the horse is ineligible for; and*

*(b) a trainer must not enter or start the horse in, any race, official trial, or jump-out for 8 clear days following midnight on the day of the administration.*

*(2) If a horse has been subjected to, or the Stewards reasonably suspect a horse has been subjected to, an intra-articular injection at any time during the 8 clear days prior to the day of a race, official trial, or jump-out, the Stewards may order the scratching of the horse from the relevant event.*

*(3) If a horse has been nominated and/or entered for a race, official trial, or jump-out, a person must not:*

*(a) administer;*

*(b) cause to be administered;*

*(c) attempt to administer; or*

*(d) be party to the administration of, an intra-articular injection to the horse at any time within 8 clear days of the race, official trial, or jump-out.*

**Note:** By way of example, if a horse was subjected to an intra-articular injection at any time on a Monday (1st day of the month), the horse would be ineligible to race, trial or jump-out until the Wednesday of the following week (10th day of the month).

Rationale;

AR 87 is expanded to prohibit the intra-articular administration of any substance at any time during the 8 clear days

prior to a race, official trial or jump-out.

### **Add AR 143(12)(c)**

*(c) An apprentice jockey must provide his or her winning rides book to a Steward before weighing-out in any race.*

Accords with the current practice of apprentice jockeys being required to provide their winning rides book to a Steward before weighing-out in a race.

### **Add AR 231(6) Care and welfare of horses**

*(6) A person must not perform endoscopy of the respiratory tract on a horse unless he or she is a qualified veterinary surgeon.*

Rationale;

Endoscopy of the respiratory tract on a horse can now only be performed by a qualified veterinarian.

### **Add AR 257A Prohibition on blood doping**

*(1) A person must not:*

# AMENDMENTS TO RULES OF RACING

*(a) withdraw and re-infuse; or*

*(b) withdraw, manipulate and re-infuse,*

*homologous, heterologous, or autologous blood, blood products or blood cells into the circulatory system of a horse.*

*(2) A person must not administer any quantity of homologous, heterologous, or autologous blood, blood products or blood cells of any origin into the circulatory system of a horse.*

*(3) Notwithstanding subrules (1) and (2), a PRA or the Stewards may find that it is a complete defence to a charge laid under subrule (1) or (2) if in their opinion:*

*(a) the relevant conduct was for life-saving purposes; and/or*

*(b) the relevant conduct was part of a veterinary regenerative therapy for the treatment of musculoskeletal injury or disease administered by or under the supervision of a qualified veterinary surgeon.*

Rationale;

Mitigates the manipulation of normal blood parameters by infusing stored blood or blood products (commonly referred to as 'blood doping' in human sports).

Note the rule contains a defence in subrule (3) to any charge where blood doping was conducted for life-saving purposes and/or as part of certain veterinary regenerative treatment.

## **Add AR 270A Penalty for breach of terms of suspension**

(1) Except with the consent of the PRA or the Stewards in whose territory a suspension was imposed, a suspended person must not during the period of the suspension contravene any of the Rules in respect of, or the terms or conditions of, the suspension.

(2) Unless otherwise determined by the PRA or the Stewards in whose territory a suspension was imposed or adopted, if a person breaches subrule (1), the period of suspension imposed on that person must automatically restart from the most recent date of the breach, and the person may also be subject to further penalty.

(3) The provisions of subrules (1) and (2) apply to any suspended person, regardless of when the suspension was imposed.

Rationale;

When licensed or registered persons are suspended, they are subject to certain express restrictions under the Rules of Racing and may also be subject to other conditions imposed by the relevant PRA or Stewards.

In contrast to the rules regarding disqualifications (AR 263(4)) – which expressly provide that a breach of any restriction while disqualified results in an automatic recommencement of the disqualification and possible further penalty (subject to PRA discretion) – the rules regarding suspensions do not specify the consequence of a breach of any restriction while suspended.

Rule is introduced for any breaching of suspension restrictions while suspended, which is consistent with the rule in respect of disqualified persons. This will add a further deterrent for suspended persons who may be inclined to contravene the conditions of their suspension.

## **Amend Local Rule LRSR 14(1)**

*(1) A syndicate registered pursuant to these rules shall, unless otherwise cancelled or terminated in accordance*

*with these rules, be taken for the purposes of Syndicate Regulation (k) to be renewed ad infinitum unless the following activity has not occurred for a period of 5 years at which time the registration will be deemed to have expired;*

*(a) Have a horse owned by the syndicate or any horses that they are listed as the breeder of start in a race or;*

*(b) have a horse owned by the syndicate involved in any breeding activity.*

Rationale;

Under the previous rule if a Syndicate did not have a horse owned by it start in a race for a period of five years the registration of it was deemed to have expired and the syndicate name would therefore be available to re-used by another group.

There are however other situations other than ownership where a syndicate name may still need to be retained within the system. The syndicate may have bred a horse that is still racing and they therefore may be entitled to breeder's bonuses. They may have horse that is still be involved in breeding activity for a number of years once it is finished racing. Rule amendment now covers these situations.
