

3.22 BANDAGES

- 1. Non-adhesive full leg bandages must be stitched the full length on the outside of the leg in contrasting thread.**
- 2. Self-adhesive bandages (e.g. Coflex, Vetrap) may be stitched, or electrical tape applied at least two times around the circumference of the bandage end. Unless the bandage is located under a secure boot.**
- 3. Adhesive bandages (e.g. Elastoplast) must be stitched with contrasting thread unless the bandage is located under a secure boot.**
- 4. Notification – The obligation to notify of any proposed change only relates to the addition or removal of bandages and not the type of bandages to be worn.**
