## Introduction

Racing in Western Australia generates almost \$1 billion for the State's economy, with half of the financial and social benefits going to regional areas. It involves 25,000 people as participants, employees and volunteers and creates around 8500 full-time equivalent jobs.

These impressive facts and figures from the Size and Scope of the Western Australian Racing Industry research, published in October 2021, seem the ideal way to introduce the Industry Status Report 2021/22.

I am pleased to say that, although the COVID-19 pandemic continued to present challenges, the racing community faced them with unfailing resilience and we were able to continue racing safely.

The pandemic has been a huge trial but has also had a positive side for racing, bringing significant increases in wagering activity. WA TAB revenue went up and Racing Bets Levy revenue reached a record level of \$126.9 million in FY2022.

This enabled us to deliver record funding of more than \$202 million to racing participants, up from \$175 million the previous year.

There was also investment in a range of infrastructure projects, with \$1.7 million provided to clubs for minor infrastructure grants and the continuation of the Bunbury racecourse development, which will be completed during FY23.

Our commitment to animal welfare was further demonstrated by the allocation of one per cent of total advertised prize money on all WA races, on top of our existing budget. This brought our total investment in animal welfare initiatives to approximately \$6 million for the year.

Our strong financial position allowed us to bring forward stakes increases by six months and, for the first time, the RWWA Board approved a three-year funding commitment that gives participants the assurance of around \$30 million a year funding increases across all codes to be implemented by FY25.

I offer my congratulations to the racing community for another successful year along with my thanks for the dedication and hard work that has sustained us through ongoing challenges.

## Thoroughbred Code National Wagering Turnover Trends\*

\* Note: Partway through 18.19, betting exchange turnover was changed from Bet Back Value (BBV) to Net Customer Winnings (NCW) (a lower figure). NCW is being used for 18.19 onwards, though prior years still reflect BBV for the betting exchange, resulting in an apparent drop in turnover. BBV is shown as a grey line in the changeover year for comparison.

\* Note: From 21.22, turnover for current and prior years has been adjusted to include unclaimed turnover on abandoned races, where this had previously been omitted.

## Harness On-Course Wagering Turnover Trends\*

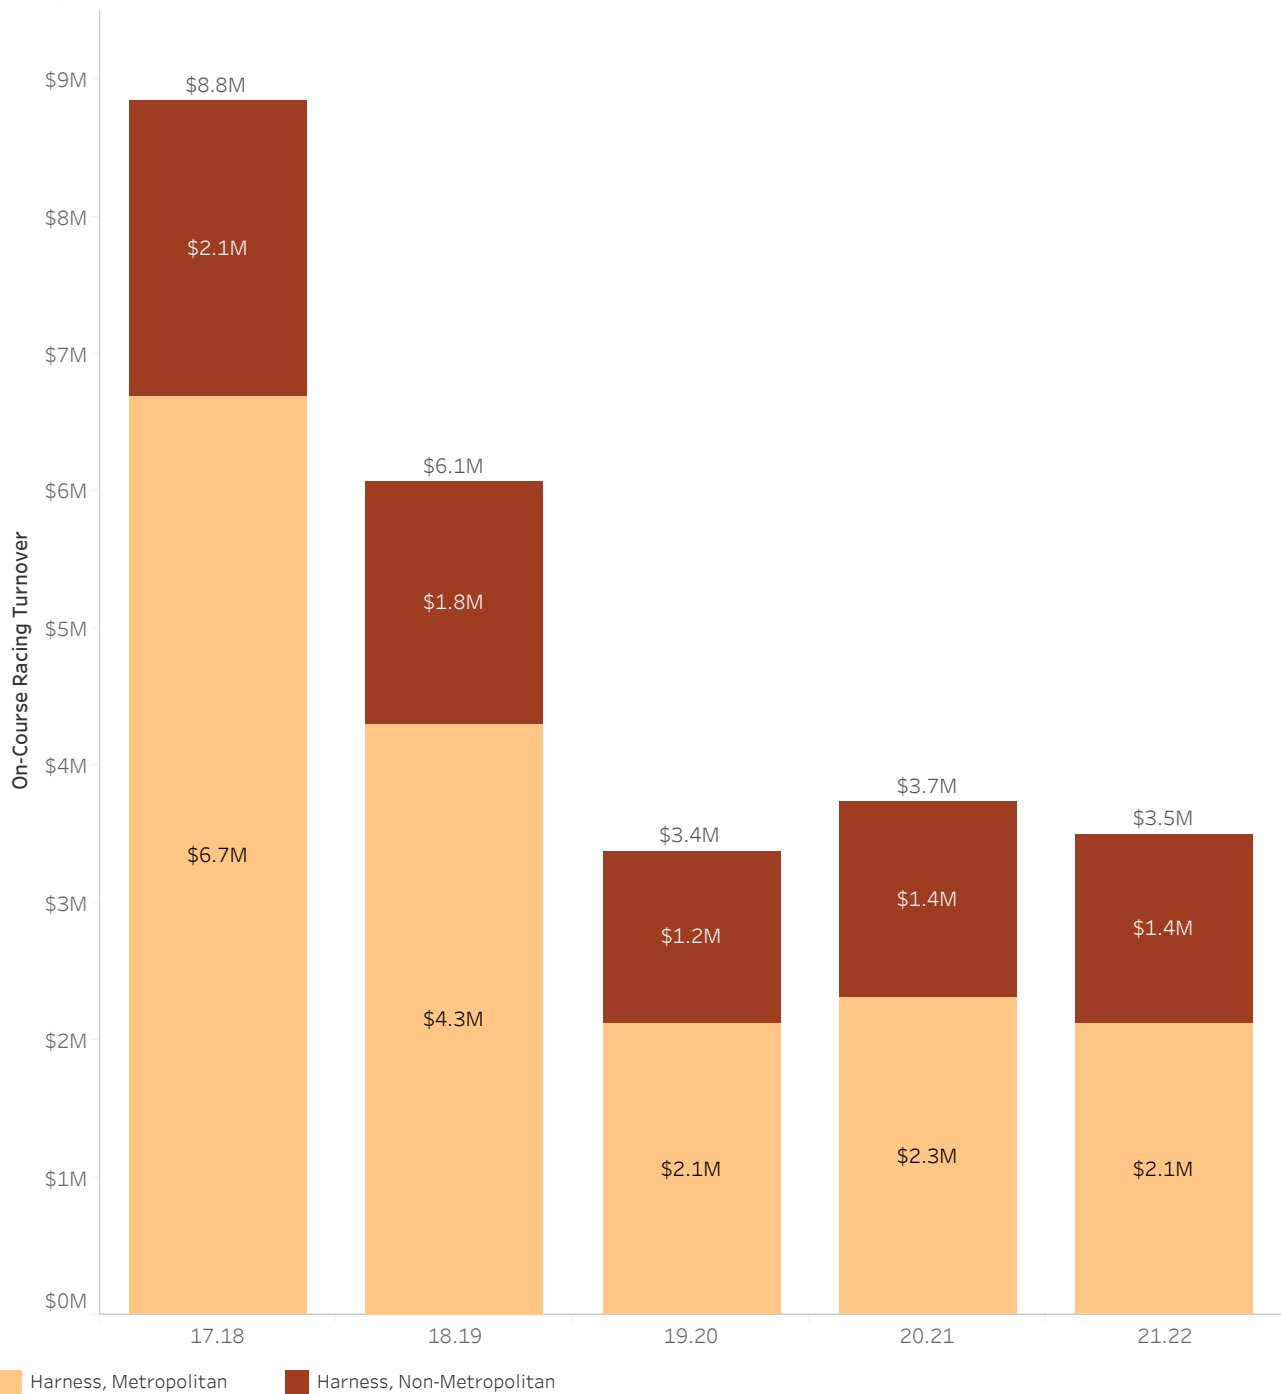

\* Note: From the last week of March 2020 until the middle of June 2020 (19.20) (almost 3 months), race clubs had no on-course patrons due to the impact of COVID-19 social distancing restrictions in WA.

\* Note: From 21.22, turnover for current and prior years has been adjusted to include unclaimed turnover on abandoned races, where this had previously been omitted.

## Harness On-Course Wagering Turnover - Metro vs Non-Metro\*

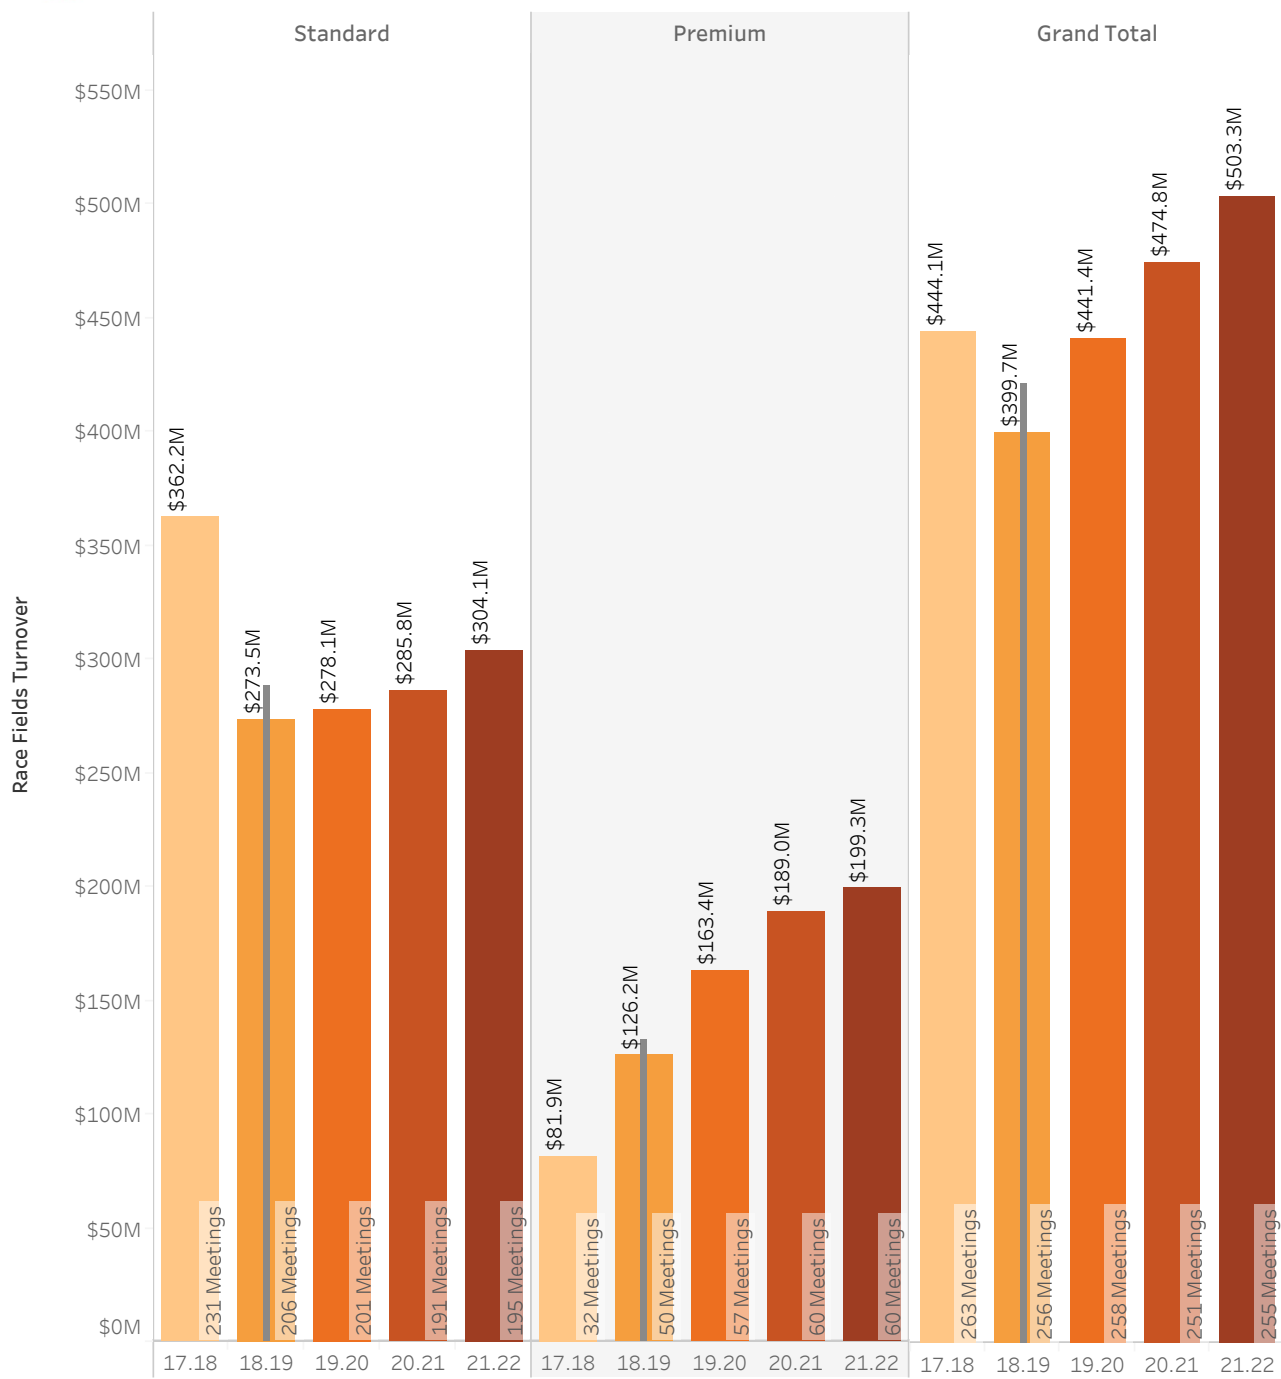

\* Note: From the last week of March 2020 until the middle of June 2020 (19.20) (almost 3 months), race clubs had no on-course patrons due to the impact of COVID-19 social distancing restrictions in WA.

\* Note: From 21.22, turnover for current and prior years has been adjusted to include unclaimed turnover on abandoned races, where this had previously been omitted.

## Harness Code National Wagering Turnover Trends\*

\* Note: Partway through 18.19, betting exchange turnover was changed from Bet Back Value (BBV) to Net Customer Winnings (NCW) (a lower figure). NCW is being used for 18.19 onwards, though prior years still reflect BBV for the betting exchange, resulting in an apparent drop in turnover. BBV is shown as a grey line in the changeover year for comparison.

\* Note: From 21.22, turnover for current and prior years has been adjusted to include unclaimed turnover on abandoned races, where this had previously been omitted.
